July 2007

## CONTENTS

INTRODUCTION.....	1
A. Resources and Contributions.....	2
A.1 Available resources: 1997–2006.....	4
A.2 Technical Cooperation Fund: 1997–2006.....	5
A.3 Member States’ contributions pledged and paid to the Technical Cooperation Fund: 2006.....	6
A.4 Assessed programme costs and national participation costs.....	10
A. Outstanding arrears of assessed programme costs.....	10
B. National participation costs.....	11
A.5 Status of extrabudgetary funds: 2006.....	13
A.6 In-kind support: 2006.....	16
A.7 Payments to TC programme resources: 2006.....	18
B. Disbursement and Implementation Summaries.....	20
B.1 Disbursement summary: 2006.....	22
B.2 Disbursement summary with apportionment of regional/interregional projects: 2006.....	27
B.3 Disbursements by Agency programme and region: 2006.....	30
A. Summary of all regions.....	30
B. Distribution by region.....	31
B.4 Disbursements by sub-component: 2002–2006.....	32
B.5 Disbursement summary: 1958–2006.....	34
B.6 Implementation summary: as of 31 December 2006.....	36
C. Non-Financial Indicators.....	36
C.1 Expert, lecturer, and meeting/workshop participant assignments by recipient country/territories: 2006.....	36
C.2 International experts and lecturers by place of origin: 2006.....	36
C.3 Technical cooperation trainees: 2006.....	36
C.4 Women's participation in technical cooperation: 2006.....	36
C.5 Equipment by place of origin: 2006.....	36
ANNEXES.....	36
1. Country groups.....	36
A. Regional groups.....	36
B. Least developed countries.....	36
2. List of abbreviations and acronyms.....	36

## **Introduction**

The following pages contain financial and statistical data that supplement the Technical Cooperation Report for 2006. Again this year, the information is grouped under three headings, which allow the reader to view comprehensively the data for each area of activity.

The countries are grouped by TC programme region in most of the tables. Annex 1 provides an alphabetical listing by region of all the countries/territories that are mentioned in this report. Montenegro declared independence from Serbia on 3 June 2006. After that date, the IAEA Membership of the former Serbia and Montenegro was continued by the Republic of Serbia. For its part, Montenegro became a Member of the IAEA on 30 October 2006. The information in the tables concerning these Member States reflects assistance and contributions over the course of the full year 2006.

Unless otherwise specified, all amounts are expressed in United States dollars. As most figures are rounded to thousands of US dollars, the amounts in tables may not add up exactly to the totals shown due to rounding.

### **A. Resources and Contributions**

The financial tables and graphs in this section show the resources received from various sources for technical cooperation activities.

### **B. Disbursement and Implementation Summaries**

The financial tables and graphs in this section show actual disbursements (monetary outlays and in-kind support provided) and implementation against the adjusted programme for the year 2006 and, in some tables, for previous years as well.

### **C. Non-financial Indicators**

The tables and graphs in this section provide figures on the actual physical outputs delivered through the technical cooperation programme, rather than the cost of the outputs. In some cases, figures on financial outputs are provided to complement that information.

The information contained in this Supplement is available in electronic form upon request. It is also available on GovAtom (for registered users). The Secretariat welcomes comments and suggestions for future improvements.

## **A. Resources and Contributions**

### **Table A.1 Available resources: 1997–2006**

This table shows resources by source of funding, based on the year in which the funds became available. The 'other income' of the Technical Cooperation Fund (TCF) includes national participation costs (NPCs) and assessed programme cost (APC) arrears received, interest income, and gains/losses on exchange. Other resources (extrabudgetary funds from Member States, organizations, United Nations Development Programme (UNDP), and in-kind contributions) are shown separately.

### **Table A.2 Technical Cooperation Fund: 1997–2006**

This table illustrates the ten year development of the target for contributions to the TCF, the amounts pledged and the payments against these pledges. The rate of attainment represents the percentage that is obtained by dividing the payments made to the TC Fund by the TCF target for a given year. In this table, contributions are shown not by the year in which they became available, but by the programme year for which they were pledged and paid. Therefore, new pledges or withdrawals against prior year targets, as well as payments, are recorded against that year, and the percentages for earlier years may change.

### **Table A.3 Member State contributions pledged and paid to the Technical Cooperation Fund: 2006**

This table reports on pledges and payments to the 2006 TCF target, set at \$77 500 000. The table is sorted according to the percentage of the target pledged. Of the 143 Member States, 79 pledged their full target (or more), 12 made partial pledges, and 52 made no pledge in 2006.

### **Table A.4 Assessed programme costs and national participation costs**

The table is divided into two parts. Part A reports on arrears of APCs as of 31 December 2006. Part B shows the amounts invoiced for 2006 under the new NPC mechanism, together with amounts that had been received as of 31 December 2006.

### **Table A.5 Status of extrabudgetary funds: 2006**

This table shows the status of extrabudgetary funds from each donor. Included in this table under Part B are funds from countries for their own projects, designated 'government cost-sharing'. Also included are funds provided to the IAEA through the Programme of Action for Cancer Therapy (PACT), the Nobel Peace Prize, and the Nuclear Security Fund. Amounts shown here refer only to funds made available to implement activities in the framework of the TC programme in order to meet the goals of the various individual funds. The 'Funds available 1 January 2006' column of the table represents the total of unliquidated obligations and the unobligated balance carried forward from the end of 2005.

### **Table A.6 In-kind support: 2006**

This table shows the in-kind support provided by 74 Member States and eight international organizations. For in-kind support, the resources and delivery are equal.

**Table A.7      Payments to TC programme resources: 2006**

This table lists, by Member State and international organization, actual payments received during 2006 from all sources of TC programme funding. TCF amounts include payments against programme years up to and including 2006. APC amounts refer to payments on arrears. National participation costs correspond to amounts reported in Table A.4.B. In-kind amounts correspond to those reported in Table A.6.

**TABLE A.1**  
**AVAILABLE RESOURCES: 1997–2006**

**Detailed Summary of Resources**  
(in thousands of dollars)

Year	Technical Cooperation Fund			Other resources				Grand total (1+5)
	Member States' Contributions	Other income	Sub-total	Extrabudgetary funds		In-kind	Sub-total	
				Member States	UNDP			
				(1a)	(1b)			
1997	47 861	2 662	50 523	6 479	1 351	1 015	8 845	59 368

a) Overrun amounts under the unobligated balance column are at least partially due to exchange rate fluctuations. Upon final payment of open obligations, fund utilization will be within resources provided.

b) Funds offered to the IAEA and secured through a bank guarantee or letter of credit are shown here in the year in which the offer was made, not the year in which cash was actually received. These funds are not yet recognized as income in the Agency's accounts.

a) Funds offered to the IAEA and secured through a bank guarantee or letter of credit are shown here in the year in which the offer was made, not the year in which cash was actually received. These funds are not yet recognized as income in the Agency's accounts.

## **B. Disbursement and Implementation Summaries**

### **Table B.1 Disbursement summary: 2006**

This table shows, by sub-component and by funding source, the total technical cooperation furnished to 112 countries and one territory as well as to regional and interregional projects. Fellowship disbursements from regional and interregional projects have been distributed to the individual recipient countries. Miscellaneous disbursements against project budgets amounting to \$10 800 are included in the equipment column. General miscellaneous costs, amounting to \$721 700, are shown separately.

### **Table B.2 Disbursement summary with apportionment of regional/interregional projects: 2006**

This table shows, by recipient country, assistance provided both from country programme activities (see Table B.1) and from activities carried out under regional and interregional programmes. Amounts shown under the column heading 'Assistance reported under Regional/Interregional category in Table B.1' have been apportioned on the basis of countries participating in the specific project or activity. These amounts do not represent audited transactions at the recipient country level.

### **Table B.3 Disbursements by Agency programme and region: 2006**

The table gives details on the disbursements made for 19 Agency programmes involving technical cooperation. The graphs, one for each region, show the percentage of the disbursements by Agency programme. Programme T in the TC project context is used primarily for human resource development and capacity building. The amount also includes \$721 700 for miscellaneous costs.

### **Table B.4 Disbursements by sub-component: 2002–2006**

This table provides a breakdown of disbursements by sub-component and funding source for the past five years. The costs of equipment procured for training courses are included under 'Training courses' to present a complete picture of the costs of training courses. 'Miscellaneous' refers to disbursements relating to all components for insurance, support provided by UNDP field offices, air cancellation charges and other minor items or services. In 2006, it also included a charge for radiation protection services totalling \$120 900.

### **Table B.5 Disbursement summary: 1958–2006**

This table provides a summary of all assistance provided by sub-component and by funding source since the beginning of the Agency's technical cooperation activities in 1958. The sub-components utilized are those that can be compared over the full time span. Amounts for government cost sharing and donor states are included under Member States.

### **Table B.6 Implementation summary: as of 31 December 2006**

The table shows, by region and country, the financial implementation of the TC programme as of 31 December 2006.

## **C. Non-financial Indicators**

### **Table C.1 Expert, lecturer, and meeting/workshop participant assignments by recipient country/territories: 2006**

This table shows the number of TC assignments provided to countries/territories during 2006. As national experts and meeting/workshop participants provide expertise or exchange experience for the benefit of their own countries, they appear in this table rather than in Table C.2. International experts and lecturers are reported by project country and national experts and meeting/workshop participants are reported by nationality.

### **Table C.2 International experts and lecturers by place of origin: 2006**

This table shows the number of individuals who undertook expert or lecturer assignments during 2006. It should be noted that Agency staff, as well as staff of other international organizations, are listed under their nationalities.

### **Table C.3 Technical cooperation trainees: 2006**

The left half of the list shows the number of people from a given country/territories who received training in 2006, either through a fellowship/scientific visit or through a training course. Individuals from a total of 119 countries/territories were trained.

The right half of the list shows the number of trainees (fellows/scientific visitors and training course participants) hosted by a given country. A total of 95 countries served as hosts of technical cooperation training programmes in 2006. Information on the number of regional/interregional training courses hosted by Member States has been included in this table.

### **Table C.4 Women's participation in technical cooperation: 2006**

This table is presented in a new format that summarizes by region the participation of women in the TC programme, according to the capacities in which they act.

### **Table C.5 Equipment by place of origin: 2006**

This table lists the total equipment purchases made by place of origin, which may differ from the vendor location. Both disbursements and number of purchase orders placed are given and include items purchased for training courses. The total amounts are therefore greater than the value shown under 'Equipment' in Table B.4. Disbursements may be made for equipment ordered in previous years; likewise, purchase orders may be shown for equipment for which payments will be made in future years. Direct costs are amounts for transportation, insurance, and other sundry items that were not attributed to places of origin, but are part of the equipment component. They are separate from miscellaneous costs, which are not reflected in this table. It should be noted that \$69 600 was spent on equipment for training courses in 2006.

- a) The difference between the number of nationals trained (4 174) and the number of trainees from abroad hosted (4 438) is due to the fact that a number of fellows/scientific visitors and training course participants went to more than one country/organization.
- b) Includes 257 trainees hosted by the Agency.
- c) Hosted by the Agency's Marine Environment Laboratory.

#### Five-year Summary
