OTHER EVENTS ORGANIZED IN CONJUNCTION WITH THE GENERAL CONFERENCE

Visit to the new facilities of the Radiation Monitoring and Protection Services The Division of Radiation, Transport and Waste Safety (NSRW), kindly invite Delegates to visit the new facilities of the Radiation Monitoring and Protection Services, inaugurated by the Director General in November 2008. The laboratory assesses the occupational radiation exposure of staff, contracted experts and fellows in line with the framework of the Agency's radiation safety regulations to verify compliance with dose limits. For registration please visit the NSRW stand on the 1st floor of the M building. Visits will last 30 minutes and take place **today** between **12:00** noon and **2:00** p.m.

Visit to the Incident and Emergency Centre **Today, 17 September 2009**, Delegates (or persons designated by them) will have the opportunity to visit the Agency's Incident and Emergency Centre (IEC), which is situated in the VIC. The IEC serves as the Agency's focal point for responding to nuclear or radiological incidents and emergencies and for promoting improvement in Member States' emergency response and preparedness. The visit will present the activities, infrastructure and communication procedures of the Agency's IEC. Registration for the visits should be made at the Information Desk, M building entrance, ground floor.

AFRA 20th Anniversary Panel Discussion To celebrate the 20th Anniversary of AFRA a panel discussion will take place.

When: Today, 17 September, from 2:00 p.m. to 4:00 p.m.

Where: Conference Room V, C building, 7th floor.

53RD GENERAL CONFERENCE

***INPRO Luncheon
Event: A partnership
for Dialogue and
Innovation in a
Changing Nuclear
World***

The objective of the International Project on Innovative Nuclear Reactors and Fuel Cycles (INPRO) is to ensure that nuclear energy is available to contribute, in a sustainable manner, to meet the energy needs of the 21st century, and to bring together technology holders and users to consider jointly desired innovations in nuclear reactors and fuel cycles.

Representatives from INPRO Member States will exchange information with delegates on experiences gained by participating in the activities of INPRO, in particular in assessing national nuclear energy systems and participating in collaborative projects such as GAINS, SMALL, COOL and PGAP. INPRO staff will provide an update on the current status and future directions in the main programme areas, i.e. Nuclear Energy System Assessments (NESA) using the INPRO Methodology; global vision for sustainable global nuclear energy development and deployment in the 21st century; innovations in nuclear technology and in institutional arrangements; and the INPRO Dialogue Forum. The event will be followed by a reception.

When: Today, 17 September, at 1:00 p.m.

Where: Conference Room M4, ground floor, M building.
