10:10-10:30	3.3	Election of chairman and vice chairman <i>CEG Chairman</i>
10:30-11:00		<i>Coffee break</i>
11:00-12:00	4	<u>CEG Workshop on System for Radioactive Waste Management in the North-West Region of Russia (March 2008, Oxford)</u>
11:00-11:30	4.1	Problems of Implementation of the Integration Approach to RW Management and Ultimate Disposal in North-West Russia <i>Ashot Sarkisov, Russia</i>
11:30-11:45	4.2	SNF and RW Management Development of System in the North-West Region of Russia: Gained Experience, Actual Objectives, Scientific and Technical Support of the Works <i>Anatoly Grigoriev and Alexander Pimenov, Russia</i>
11:45-12:00		Discussion
12:00-14:30	5	<u>CEG Workshop on Problems of Decommissioning Radioisotope Thermoelectric Generators (April 2008, Moscow)</u>
12:00-12:30	5.1	Advance in RTGs Disposition in Russia <i>Sergey Vasin, Alexander Grigoriev, Russia</i>
12:30-14:00		<i>Lunch break</i>
14:00-14:15	5.2	Joint US-Norwegian Presentation on Main Findings and Recommendations of the Workshop <i>Bill Abramson, USA and Ingar Amundsen, Norway</i>
14:15-14:30		Discussion
14:30-17:00	6	<u>Status of specific CEG projects and other issues</u>
14:30-14:50	6.1	NDEP New Projects and the S.M.P. <i>Serge Gas, EBRD</i>

14:50-15:00	6.2	Progress in Preparation of FTB Lepse for Dismantlement <i>Sergei Kazakov, Russia</i>
15:00-15:30	6.3	Submarine Dismantlement at the Zvezda Shipyard and the Issue of Damaged NPS <i>Alexander Kiselev, Russia</i>
15:30-16:00		<i>Coffee break</i>
16:00-16:20	6.4	Contribution of the ISTC in the Field of NFC and Radwaste Management Technologies <i>Valentina Rudneva, Albert Gozal, ISTC</i>
16:20-16:25	6.5	The Strategy for Management of Toxic Waste Produced during Decommissioning and Environmental Remediation in North-West Russia <i>Valentin Vysotski, Russia</i>
16:25-17:00		Reserve
17:00-17:30	7	<u>Time, place and topics of the CEG workshops and plenary meeting in 2009</u> <i>by the CEG Chairman</i>
17:30-17:40	8	Summing-up of the Meeting <i>by the CEG Chairman</i>

Friday, 26 September

07:30-09:00		Bus transfer from the hotel to the CEA Research Centre of Fontenay-aux-Roses
In the bus		Registration formalities to enter the site (in order to save time)
09:30-09:45		Welcome and introduction at the building of the first French atomic pile (Zoe)
10:00-12:30		Visiting a building formerly used for chemical treatment and production of trans-uranium elements: hot cells and tanks at different steps of dismantling
12:30-14:00		<i>Lunch break</i>
14:00-16:00		Visiting other facilities: hot cells used for radioactive metal treatment, which are now under dismantling; radwaste temporary storage and RTG storage. Presentation of equipment and vehicles for radwaste or contaminated area characterisation
16:00-17:00		Bus transfer from Fontenay aux Roses either to Paris (i.e. Eiffel Tower) or to Holiday Inn
