

# EU's 20/20/20 Vision

The EU's 20/20/20 plan envisages the following goals:

- ✓ 20% cut in EU's Greenhouse Gas (GHGs) emissions (or 30% as part of an international agreement);
- ✓ 20% energy share from renewable sources; and
- ✓ 20% increase in energy efficiency.

These targets are to be achieved by the year 2020. The ultimate goal of the plan is to limit the average global temperature rise to 2°C.
