2007/Note 32

Note by the Secretariat

Fifth Meeting of *Points of Contact* for the Recruitment of Women

(24th May 2007, IAEA Headquarters)

The purpose of the meeting was to review actions taken by the Secretariat and *Points of Contact* with regard to the recruitment of women, since the last meeting held in September 2006. Sixteen Member State representatives participated in the meeting.

In his opening remarks, David Waller, Deputy Director General of the Department of Management, emphasized the importance of a joint effort between the Secretariat and Member States. While noting that 47 Member States have already joined the *Points of Contact* initiative, including 25 members of the 2006–2007 Board of Governors, he called on those Member States that have not yet done so to make a nomination as soon as possible. He further encouraged the *Points of Contact* to continue expanding the network of institutes, societies, universities and relevant institutions from which well qualified female candidates could be attracted.

Gabriele Voigt, Director of the Agency's Laboratories (Seibersdorf and Headquarters) and Chair of the JAC Sub-Committee on Gender Concerns, briefed Member States on the activities carried out by the sub-committee and the progress achieved. She also reported on the status of representation of women at the IAEA laboratories.

Anita Nilsson, Focal Point for Gender Concerns, gave an update of the Secretariat's initiatives towards furthering gender equality, including the Agency's gender equality policy and the establishment of Departmental Focal Points for Gender Concerns, who support the Secretariat's work on gender issues.

Catherine Monzel, Alternate Focal Point, reported on the outreach activities to increase the representation of women, many of which interact with the tasks of the *Points of Contact*. She presented the current status of representation of Professional women in the Secretariat, which pointed to favourable upward trends.

Points of Contact were urged to identify an organization in their country that might be interested in highlighting the IAEA and its work at one of such organization's events.
