

# CONTENTS

## SUMMARY

Nuclear power strategy: Requirements for technology

*V.V. Orlov, V.I. Rachkov*

Nuclear power of the coming century and requirements to the nuclear technology

*V.V. Orlov, V. Leonov, A.G. Sila-Novitski, V. Smirnov, V. Tsikunov, A.I. Filin*

Evolution of the technical concepts of fast reactors: The concept of BREST

*V.V. Orlov*

Design features of BREST reactors and experimental work to advance the concept of BREST reactors

*A.I. Filin, V.V. Orlov, V.N. Leonov, A.G. Sila-Novitski, V.S. Smirnov, V.S. Tsikunov*

Current status and plans for development of NPP with BREST reactors

*A.I. Filin*

Experimental studies of BREST-OD-300 reactor characteristics on BFS facilities

*I.P. Matveenko, A.M. Tsyboulia, G.N. Manturov, M.Y. Semyonov, V.N. Kocsheyev, V.S. Smirnov, A.V. Lopatkin, V.G. Muratov, P.N. Alexeyev*

Mononitride U-Pu mixed fuel and its electrochemical reprocessing in molten salts

*B.D. Rogozkin, N.V. Stepenova, Yu.E. Fedorov, O.N. Dubrovin, M.G. Shishkov, O.A. Alekseev, T.D. Loushnikova, S.I. Balakireva, V.V. Shentiakov*

The BOR-60 loop-channel design for testing the BREST reactor fuel

*V.N. Efimov, I.Yu. Zhemkov, N. Kozolup, V.I. Polyakov, V.T. Stepanov, Yu.E. Stynda, V.V. Orlov, A.I. Filin, A.G. Sila-Novitski, A.A. Pikalov*

Lead coolant as a natural safety component

*V.V. Orlov, V.N. Lenov, A.G. Sila-Novitski, V.S. Smirnov, A.I. Filin, V.S. Tsikunov*

Issues of lead coolant technology

*Yu.I. Orlov, P.N. Martynov, V.A. Gulevsky*

Experimental and computational study on core thermohydraulics of BREST-type reactors (lead cooling)

*A.D. Efanov, A.V. Zhukov, Ju.A. Kuzina, A.P. Sorokin, V.P. Smirnov, A.G. Sila-Novitski*

Corrosion resistance of structure materials in lead coolant with reference to reactor installation BREST-OD-300

*A. Roussanov, V. Troyanov, G. Jachmenev, A. Demishonkov*

Multipurposed small fast reactor SVBR-75/100 cooled by plumbum-bismuth

*A.V. Zrodnikov, V.I. Chitaykin, B.F. Gromov, O.G. Grigoriev, A.V. Dedoul, G.I. Toshinsky, Yu.G. Dragunov, V.S. Stepanov*

Conceptual design studies on various types of HLMC fast reactor plants

*T. Mihara, Y. Tanaka, Y. Enuma*

Status report on the ADS research activity in Italy

*S. Buono, C. Aragonese, L. Maciocco, V. Moreau, L. Sorrentino*

The INP (Kazakhstan) activity in the field of accelerator-driven subcritical systems

*O.P. Maksimkin, S.V. Zhdanov*

MYRRHA: A multipurpose accelerator driven system for research & development

*Ph. Benoit, H. Ait Abderrahim, P. Kupschus, E. Malambu, K. Van Tichelen,*

*B. Arien, F. Vermeersch, V. Jongen, S. Ternier, D. Vandeplassche*

Design of a molten heavy-metal coolant and target for fast-thermal accelerator driven sub-critical system (ADS)

*B. Satyamurthy, S.B. Deqwekar, P.K. Nema*

Design progress of HYPER system

*W.S. Park, W. Hwang, Y.H. Kim, N.I. Tak, T.Y. Song*

Study on ADS Pb (Pb-Bi) spallation target

*Z. Zhao, Z. Luo, Y. Xu, D. Ding*

LIST OF PARTICIPANTS
