

CONTENTS

PAPERS PRESENTED

An overview of world thorium resources, incentives for further exploration and forecast for thorium requirements in the near future	7
<i>K.M.V. Jayaram</i>	
IAEA activities in nuclear fuel technology, performance and utilization including the role of thorium-based fuel	21
<i>V. Onufriev</i>	
Thorium utilization in PWRs: status of work in the cooperative Brazilian/German program ...	27
<i>M. Peehs, G. Schlosser, R.B. Pinheiro, V. Maly, M. Hrovat</i>	
Thorium cycle in unmodified PWRs	45
<i>G. Gambier, H. Schaeffer</i>	
Thorium utilization in solving the nuclear power fuel problem	59
<i>I.S. Slesarev, A.G. Morozov, D.F. Tsurikov</i>	
Basic research on utilization of thorium-based nuclear fuel	67
<i>J.H. Zhang, B.R. Bao, Y.X. Xia, G.Q. Wang, J.B. Zhu</i>	
Thorium oxide blanket fabrication for Indian fast breeder test reactor	73
<i>P. Balakrishna, B.P. Varma, R. Rajendran, K. Balaramamoorthy</i>	
Reprocessing and refabrication of thorium-based fuel	89
<i>E. Zimmer, C. Ganguly</i>	
Operative experience in first campaign for reprocessing of uranium-thorium Elk-River fuel elements	113
<i>T. Candelieri</i>	
SUMMARY OF PAPERS	133
SUMMARY OF THE PANEL DISCUSSION	139
Annex I. STATUS OF US PROJECTS RELATED TO THORIUM UTILIZATION	145
Annex II. CURRENT STATUS OF THE THORIUM FUEL RESEARCH PROGRAMME IN JAPAN	147
Annex III. THORIUM RESOURCE STUDIES IN AUSTRALIA	149
Annex IV. NUCLEAR DATA FOR Th-232 AND U-233	151
List of participants	161
