

CONTENTS

Status of (UPu)C and (UPu)N fuel development in BARC	7
<i>C. Ganguly, P.V. Hegde, A.K. Sengupta</i>	
Fabrication of uranium-plutonium mixed nitride and thermally stable carbide fuels	25
<i>Y. Arai, S. Fukushima, K. Shiozawa, M. Handa</i>	
Quality control of uranium-plutonium mixed carbide and nitride fuels	35
<i>A. Maeda, T. Iwai, T. Ohmichi, M. Handa</i>	
Mixed nitride fuels fabrication in conventional oxide line	43
<i>H. Bernard, P. Bardelle, D. Warin</i>	
Use of carbide-nitride fuel in the USSR: A review	53
<i>A.A. Majorshin, L.M. Zabud'ko, Yu.K. Bibilashvilij, S.M. Bogatyr</i>	
Fabrication processes and characterization of LMFBR carbide and nitride fuels and fuel pins	61
<i>K. Richter, H. Blank</i>	
Performance of He-bonded LMFBR carbide fuels at the beginning of life and consequences for their subsequent behaviour	71
<i>H. Blank, M. Campana, M. Coquerelle, K. Richter</i>	
Advanced fuel for fast breeder reactors produced by gelation methods	81
<i>H.P. Alder, G. Ledergerber, R.W. Stratton</i>	
Performance of BOR-60 vibropack uranium-plutonium oxide fuel pins	97
<i>G.I. Gadzhiev, A.A. Majorshin, A.A. Petukhov</i>	
Present status of FBR mixed oxide and advanced fuel development at PNC	107
<i>H. Endo, I. Nakajima</i>	
Summary of the meeting	119
Panel Discussion	129
List of Participants	133
