

Evaluation of benchmark calculations on a fast power reactor core with near zero sodium void effect

*Final report of an international benchmark programme
supported by the
International Atomic Energy Agency
and the
Commission of the European Communities
1992–1993*

INTERNATIONAL ATOMIC ENERGY AGENCY

IAEA

January 1994

The IAEA does not normally maintain stocks of reports in this series.
However, microfiche copies of these reports can be obtained from

INIS Clearinghouse
International Atomic Energy Agency
Wagramerstrasse 5
P.O. Box 100
A-1400 Vienna, Austria

Orders should be accompanied by prepayment of Austrian Schillings 100,—
in the form of a cheque or in the form of IAEA microfiche service coupons
which may be ordered separately from the INIS Clearinghouse.
