

## CONTENTS

Summary of Sessions .....	7
<b>SESSION I</b>	
Methods for seismic analysis of nuclear power plants .....	13
<i>F. Gantenbein</i>	
Earthquake analysis with nonlinear soil–structure interaction and nonlinear supports of components .....	27
<i>V. Hansson</i>	
Contribution of earthquakes to the risk of a HTR-100 plant .....	34
<i>J. Altes</i>	
<b>SESSION II</b>	
Study on the seismic load against the HTTR building: seismicity and wave propagation features of the HTTR site .....	45
<i>T. Suzuki, Y. Yamagishi, K. Tokita</i>	
Soil–structure interaction analysis of HTTR building by a simplified model .....	52
<i>F. Yagishita, H. Suzuki, Y. Yamagishi</i>	
Soil–structure interaction analysis of HTTR building by a finite element model .....	60
<i>Y. Yamagishi, H. Suzuki, F. Yagishita</i>	
Seismic design of the Heysham 2 advanced gas cooled reactor nuclear power station .....	66
<i>C.F. Allen</i>	
Seismic analysis of the modular high temperature gas cooled reactor .....	78
<i>F.F. Tajirian, M. Longstreth, A. Appleford</i>	
<b>SESSION III</b>	
Seismic response analysis for HTTR core using the SONATINA-2V code .....	89
<i>T. Iyoku, S. Shiozawa, I. Nishiguchi, K. Hayashi, Y. Watanabe, N. Tsuji</i>	
Seismic response of HTTR core bottom structures .....	95
<i>T. Iyoku, Y. Inagaki, M. Futakawa, I. Nishiguchi, T. Miki, K. Jinza, T. Tomizuka</i>	
Seismic scammability of HTTR control rods .....	105
<i>I. Nishiguchi, T. Iyoku, N. Ito, Y. Watanabe, T. Araki, S. Katagiri</i>	
Assessing seismic effects in gas cooled reactor building and pipeline design .....	111
<i>T.N. Chikunova</i>	
Seismic stability of VGM type high temperature gas cooled reactors .....	113
<i>V.V. Zhukov, V.B. Kaidalov, A.I. Kiryushin, V.M. Silaev</i>	

**SESSION IV**

Dynamic testing and qualification ..... 125  
*A. Kleine-Tebbe, G. Schmidt, W. Theymann*

Investigation of dynamic response of HTR core and comparison with shaking table tests ..... 133  
*E. Anderheggen, E.G. Prater, A. Kreis*

Heysham II/Torness power stations: seismic qualification of core structures and boilers ..... 140  
*D.J. Shepherd*

List of Participants ..... 149
