

## CONTENTS

1.	INTRODUCTION .....	1
2.	OPENING REMARKS .....	1
3.	SUMMARY AND CONCLUSIONS	
	3A. Session I: Design Requirements .....	3
	3B. Session II: Design Construction and Prefabrication Tests for Special Components .....	4
	3C. Session III: Selected Problems .....	5
	3D. Round Table Discussion .....	6
3 4.	CONTRIBUTIONS	
	Design of a nuclear steam reforming plant .....	8
	J. Malherbe	
	Core design for nuclear process heat reactor .....	16
	A. L'Homme, J. Gouret	
	Design and application for a high-temperature nuclear heat source .....	31
	R.N. Quade	
	Basic lay-out, arrangement and design criteria of heat components of the "nuclear coal gasification prototype plant (PNP)" .....	45
	R. Pruschek	
	Materials evaluation and development for HTR-nuclear process heat application .....	52
	H. Nickel, F. Schubert, H. Schuster, E.D. Grosser, W. Theymann	
	Intermediate heat exchanger for HTR process heat application .....	62
	M. Crambes	
	Heat-exchanging components for coal gasification: He/He intermediate heat exchanger (IHX) and steam reformer (STR) in the primary circuit .....	71
	W. Niemeyer	
	Design, construction and operation experience of the He-He intermediate heat exchanger .....	77
	M. Itoh	
	Analysis of heat exchanger bundles operated at elevated temperatures .....	87
	U. Blumer	
	Helium-heated steam reformer .....	94
	T. Meguro	
	Gas generator for the steam gasification of coal with nuclear generated heat .....	102
	G. Buchner	

Design of steam generators for process heat plants: requirements, design concepts, status and further development .....	111
J. Rautenberg	
Construction and performance tests of a secondary hydrogen gas cooling system .....	119
K. Sanokawa, M. Hishida	
Results from integral tests of single reformer tubes under simulated nuclear reactor conditions .....	134
C.B. v.d. Decken, H. Fedders, R. Harth, B. Hühlein, E. Riensche	
Mechanical design aspects of HTR-heat exchanger components: description of loading conditions, discussion of failure modes, design criteria and present status of mechanical design work .....	142
H.-J. Seehafer	
Development and test evaluation of duplex steam reformer tube .....	151
D.C. Allen, D.J. Meyer, G.R. Pflasterer	
 5. AGENDA OF THE MEETING .....	 164
6. LIST OF PARTICIPANTS .....	165
