

IAEA

Atoms for Peace: The First Half Century

1957-2007

**2007 General
Conference**

**INSAG
FORUM**

The International Nuclear Safety Group (INSAG) is a group of experts with high professional competence in the field of nuclear safety working in regulatory organizations, research and academic institutions, and the nuclear industry. INSAG is constituted under the auspices of the International Atomic Energy Agency with the objective of providing authoritative advice and guidance on nuclear safety approaches, policies and principles for nuclear installations (defined as nuclear power plants, fuel cycle facilities, research reactors and support facilities). In particular, INSAG provides recommendations and informed opinions on current and emerging nuclear safety issues, the international nuclear community and public through the offices of the IAEA.

**Operational Experience Feedback —
How can we ensure that lessons are being learned?**

Safety/Security Synergy

Two cultures

Two perspectives

One goal

**International Atomic Energy Agency
Department of Nuclear Safety and Security**

17 September 2007

15:00 – 17:00

Hall C at the ACV

Agenda

The topics of the INSAG forum this year relate to Operational Experience (OE) Feedback and, in particular, how information generated by nuclear power plants in response to incidents and events can be utilized better by other nuclear power plants, operators and regulators worldwide. The panel will be chaired by INSAG Chairman Richard Meserve. It will include presentations by three organizations related to how they view a strong OE programme and its potential benefits to international nuclear safety.

The second hour will focus on the issue of the synergy between nuclear safety and security. These disciplines represent two very different cultures which need to work together. The panel will present the relevant issues and solicit audience views on areas of common interest and ways to achieve better integration.

Programme

Mr. Richard Meserve
INSAG Chair

- 15:00 Issue 1 — Operational Experience Feedback**
INSAG perspective on experience/feedback
Mr. Richard Meserve
INSAG Chair
- IAEA's work in OE, IAEA's OSART, PROSPER and IRS programmes — how they contribute to sustainable nuclear safety.**
Mr. Miroslav Lipar
IAEA
- Forsmark, the lessons learned by the Swedish regulatory body**
Mr. Lennart Carlsson
SKI
- 16:00 Issue 2 — The synergy between nuclear safety and nuclear security — different cultures, different perceptions, one goal.**
- INSAG perspective** **Ms. Veronique Decobert**
AREVA
- ADSEC perspective** **Mr. Jamshed Azim Hashmi**
ADSEC
- IAEA perspective** **Mr. Christer Viktorsson**
