WELCOME TO THE PREPARATION OF THE 2014-2015 TC PROGRAMME

The project design phase for the 2014-2015 TC programme has started! (2012-09-13)

As of 30 August 2012, feedback notes have been issued to NLOs and Regional/Cooperative Agreement Chairs with the results of the screening and appraisal conducted on the national and regional concepts submitted.

The PROJECT DESIGN PHASE has now started and NLOs and Agreement Chairs are encouraged to continue the dialogue with PMOs in the TC Department for further clarifications and support, if required, in order to prepare the respective Project Documents in line with the Logframe Approach (LFA) and TC programme quality requirements.

As the deadline for uploading draft national and regional Project Documents to the PCMF IT platform is 15 December 2012, the PCMF IT platform will be open for uploading at the end of November 2012.

Training on Technical Cooperation online tools, PCMF and InTouch, with our TC IT experts, for delegates attending the 56th General Conference (2012-09-07)

For delegates wishing to discuss issues or receive training on the online TC tools, PCMF and InTouch, please email our contact point (PCMF.Contact-Point@iaea.org). They will happily arrange an appointment with you in the afternoons during the General Conference week (17-21 September).

For registration to these platforms, please [click here](#).

PCMF (Programme Cycle Management Framework): a platform for registered users to develop and manage TC projects from project concept submission through project design, approval and monitoring. It provides all stakeholders with access to their projects and facilitates interaction between members of the project team.

InTouch: A communication platform that allows registered users to complete and maintain their professional profile online, and to apply for a fellowship, scientific visit, training course or meeting, or for expert/lecturer assignments. InTouch also maintains an online history of the participation of registered users in the TC programme.

Message to NLOs and Chairs of Regional/Cooperative Agreements (2012-08-10)

The Secretariat expresses its appreciation to Member States for adhering to the deadlines for the submission of CPNs and regional project concepts. The feedback notes are being finalized and will be uploaded in due course.

Message to NLOs on Country Programme Note (CPN) submission (2012-05-21)

As announced earlier, the PCMF IT platform is now open for data entry. Please be aware that only complete CPNs (overview and project concepts) will be taken into consideration and that the PCMF IT platform will be closed for CPN submission on 31 May 2012.

In order to facilitate the process of submitting the CPN to the PCMF IT platform, a training video has been prepared in English, French and Spanish. The video is available on YouTube at the following locations:

English: <http://www.youtube.com/watch?v=XJFgCS-zcw>
 French: <http://www.youtube.be/dQckaZ00iQg>
 Spanish: <http://www.youtube.be/AP2bUjYzIQ>

Please be aware that only complete CPNs will be taken into consideration and that the PCMF IT platform will be closed for CPN submission on 31 May 2012.

Submission of regional project concepts

Regional concepts proposed by a Member State should be uploaded as Word documents to the 'Programme Related Documents' section in the lower part of the CPN and submitted as part of the CPN.

Regional concepts proposed by a Regional/Cooperative Agreement should be uploaded to the PCMF IT platform by the Chair of the Regional/Cooperative Agreement.

Uploading of Concepts (2012-03-24)

NLOs are advised that the PCMF IT platform will be open for data entry as of 21 May 2012, when NLOs can start entering the CPN data into the relevant fields of the PCMF IT platform.
