

International Symposium on Nuclear Power Plant Life Management

**Budapest, Hungary
4 – 8 November 2002**

organized by the
International Atomic Energy Agency (IAEA)

hosted by the
Government of Hungary
through the
Hungarian Nuclear Society (HNS)

SECOND ANNOUNCEMENT

PARTICIPATION

All persons wishing to participate in the Symposium are requested to complete a Participation Form (Form "A") and send it as soon as possible to the competent official authority (Ministry of Foreign Affairs or national atomic energy authority) for subsequent transmission to the IAEA. A participant will be accepted only if the Participation Form is transmitted through the competent official authority of a Member State of the International Atomic Energy Agency or by an organization invited to participate.

Participants whose official designation has been received by the IAEA will be contacted directly with further information on the Symposium. This information will also be posted on the Symposium webpage under: <http://www.iaea.org/worldatom/Meetings/2002/infcn92.shtml> .

CALL FOR POSTER PRESENTATIONS

The Symposium programme is complete with regard to oral paper presentations. However limited space is available for posters. Extended synopsis for poster presentation may be submitted on session topics listed on the attached provisional programme. A completed **Form for Submission of a Paper** (see attached Form "B"), together with the Participation Form (see attached Form "A") and two copies of an **extended synopsis** of 800 words (i.e. two A4 format pages of single spaced typing or the equivalent, including any tables or diagrams and a few pertinent references) must be sent (in English) to the competent official authority for transmission to the IAEA by **9 September 2002** (as described under 'Participation'). In addition, the extended synopsis should be sent **electronically** to the Scientific Secretary, V. Lyssakov (e-mail address: V.Lyssakov@iaea.org).

The synopsis should give enough information on the contents of the proposed poster to enable the selection committee to evaluate it. Introductory and general matters should not be included. The synopsis - if accepted - will be reproduced in unedited form in the Book of Extended Synopses; therefore, the original must be submitted as camera-ready copy in a form the author would wish to have the work presented. The general style and presentation should be as in the attached sample. The extended synopsis should be prepared using commonly available word processing software. The IAEA uses Microsoft Word. In the letter of transmittal, the author should note the specific software used.

Poster Acceptance

Authors will be informed whether their posters have been accepted for presentation on the basis of the extended synopsis. The IAEA, however, reserves the right to refuse the presentation or publication of any paper that does not meet the expectations based on the information given in the extended synopsis.

Further details concerning the preparation and presentation of the poster will be sent together with the acceptance letter.

SECRETARIAT

The address of the Secretariat is:
International Atomic Energy Agency
Vienna International Centre
P.O. Box 100
Wagramer Strasse 5
A-1400 Vienna, Austria

Telephone No.: +43-1-2600(0) plus extension
Telex No.: +43-1-12645
Telefax No.: +43-1-26007
Electronic mail:official.mail@iaea.org

Further information on the Symposium is available at the IAEA webpage:
<http://www.iaea.org/worldatom/Meetings/2002/infcn92.shtml> .
