

## **Events Organized and/or Co-sponsored by the Agency's Secretariat in Conjunction with the Conference's Session**

**Monday, 26 September 2016**

### **ReNuAL Project: Progress to Date and Looking Ahead**

This event will mark the successful fundraising for the Renovation of the Nuclear Applications Laboratories (ReNuAL) project and present the current status of the work on the ground to Member States. The concept of the donor recognition wall that will acknowledge all contributors will be introduced. The event will also provide an opportunity to look ahead to the further needs of these laboratories in Seibersdorf. The event will be held on **Monday, 26 September 2016, from 12.00 noon to 12.30 p.m. in Conference Room C2, C building, seventh floor.**

### **Introducing Nuclear Science and Technology in Secondary Schools**

This event will showcase a pilot initiative to introduce nuclear science and technology in secondary schools in countries in Asia and the Pacific through a compendium of resources and activities that has been specifically designed for teachers and students at such schools. The event will be held on **Monday, 26 September 2016, from 2.00 p.m. to 3.00 p.m. in Conference Room C4, C building, seventh floor.**

### **The Forum of Nuclear Regulatory Bodies in Africa Plenary Meeting**

During the Plenary Meeting members of the Forum of Nuclear Regulatory Bodies in Africa (FNRBA) will review the activities and achievements of 2016 so far, and will approve and prepare the FNRBA's plan of activities for 2017. The event will be held on **Monday, 26 September 2016, from 2.00 p.m. to 4.00 p.m. in Meeting Room M0E 03, M building, ground floor.**

### **Treaty Event**

The Treaty Event aims at promoting universal adherence to the multilateral treaties for which the Director General is depositary related to nuclear safety and security as well as to civil liability for nuclear damage. In this respect, as was the case in previous years, the Event provides an additional opportunity to deposit instruments of ratification, acceptance, approval or accession. This year's Treaty Event will have a special focus on the Convention on Nuclear Safety, the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management, and on the Amendment to the Convention on the Physical Protection of Nuclear Material. The event will be held on **Monday, 26 September 2016, from 2.00 p.m. to 3.00 p.m. in Meeting Room M0E 79, M building, ground floor.**

## **International Physical Protection Advisory Service — 20 Years of Achievement**

The objective of this side event is for the Secretariat to brief delegates on what has been achieved by the International Physical Protection Advisory Service (IPPAS) in the twenty years of its existence. Some Member States will also share their experience related to IPPAS. The event will be held on **Monday, 26 September 2016, from 2.30 p.m. to 4.00 p.m. in Conference Room C2, C building, seventh floor.**

## **Nuclear Techniques to Assess Breastfeeding Practices**

This event will showcase a nuclear technique that can help to obtain accurate information on breastfeeding practices to validate information collected in demographic and health surveys in Member States. The event will be held on **Monday, 26 September 2016, from 4.00 p.m. to 5.30 p.m. in Conference Room M4, M building, ground floor.**

## **International (and Regional) Efforts to Enhance Emergency Preparedness and Response**

This event will provide an overview of the development of the International Radiation Monitoring Information System (IRMIS) and of the status of the European Union Radiological Data Exchange Platform (EURDEP). The event will be held on **Monday, 26 September 2016, from 4.00 p.m. to 6.00 p.m. in Conference Room C4, C building, seventh floor.**

## **Tuesday, 27 September 2016**

### **Women in All Things Nuclear: Women at the IAEA over the Last 60 Years**

This event will look at the evolution of women's contribution in the nuclear field and discuss the challenges and opportunities that exist for women to enhance the mission of Atoms for Peace and Development. The event will be held on **Tuesday, 27 September 2016, from 8.30 a.m. to 10.00 a.m. in the VIC Restaurant, F building, ground floor.**

### **Presentation of the International Nuclear Management Academy**

This event will present the International Nuclear Management Academy (INMA) and how it supports high quality Masters level programmes in nuclear technology management for the nuclear sector. The event will be held on **Tuesday, 27 September 2016, from 9.30 a.m. to 11.00 a.m. in Conference Room C3, C building, seventh floor.**

### **Targeted Recruitment Initiatives: Sourcing Plan Implementation**

This event will focus on the implementation of the new sourcing plan to increase visibility of career opportunities at the Agency, particularly among female applicants, candidates from developing Member States and professionals in niche areas. A brief overview of the outreach programme will be presented along with updates on progress including webinar participation, talent acquisition and targeted recruitment projects, including the development of talent pipelines to attract applicants for short-term and temporary assignments in technical and scientific areas. The event will be held on **Tuesday, 27 September 2016, from 11.00 a.m. to 12.00 noon in Conference Room M5, M building, ground floor.**

## **Improving the Management of Gynaecological Cancer**

Integrating diagnostic imaging and selecting the best possible treatment is key to improving patient outcomes. The event will introduce a new app that helps physicians to provide better care to patients with gynaecological cancers. The event will be held on **Tuesday, 27 September 2016, from 11.00 a.m. to 12.30 p.m. in Conference Room C4, C building, seventh floor.**

## **Sixth Nuclear Operator Organizations Cooperation Forum: Economic Sustainability of Nuclear Power Generation in the Next Decade**

The topic of this year's Forum is "Economic Sustainability of Nuclear Power Generation in the Next Decade", and it will focus on the economic and technical aspects of nuclear power generation. The event will be held on **Tuesday, 27 September 2016, from 11.30 a.m. to 1.00 p.m. in Conference Room C3, C building, seventh floor.**

## **IAEA School of Radiation Emergency Management: Training on Nuclear or Radiological Emergency Preparedness and Response**

This event will provide an overview of the IAEA School of Radiation Emergency Management. This course provides comprehensive training on emergency preparedness and response and is organized by the Agency's Incident and Emergency Centre in conjunction with the Department of Technical Cooperation to train Member States on nuclear or radiological emergency preparedness and response. The event will be held on **Tuesday, 27 September 2016, from 12.00 noon to 2.00 p.m. in Conference Room C5, C building, seventh floor.**

## **Recent Advances in Boron Neutron Capture Therapy Using Research Reactors and Accelerators**

Boron neutron capture therapy (BNCT) has the potential to be an effective option for the treatment of certain types of cancer. This event will discuss the current status and future perspectives of BNCT. The event will be held on **Tuesday, 27 September 2016, from 1.00 p.m. to 3.00 p.m. in Conference Room M4, M building, ground floor.**

## **INPRO Collaborative Project SYNERGIES**

This event will present a short summary of the key findings of the International Project on Innovative Nuclear Reactors and Fuel Cycles (INPRO) Collaborative Project SYNERGIES ('Synergistic Nuclear Energy Regional Group Interactions Evaluated for Sustainability'). The event will be held on **Tuesday, 27 September 2016, from 1.30 p.m. to 3.00 p.m. in Conference Room C3, C building, seventh floor.**

## **Nuclear Capacity Building and Efficient Training Delivery**

This event will present the Agency's programme for capacity building based on research reactors and distance learning. It will feature the IAEA-designated International Centre based on Research Reactors (ICERR) scheme, a live demonstration of the Internet Reactor Laboratory (IRL) project, research reactor coalitions and hands-on training courses as well as the Agency's e-learning tools. The event will be held on **Tuesday, 27 September 2016, from 2.00 p.m. to 4.00 p.m. in Conference Room C2, C building, seventh floor.**

### **Treaty Event**

The Treaty Event aims at promoting universal adherence to the multilateral treaties for which the Director General is depositary related to nuclear safety and security as well as to civil liability for nuclear damage. In this respect, as was the case in previous years, the Event provides an additional opportunity to deposit instruments of ratification, acceptance, approval or accession. This year's Treaty Event will have a special focus on the Convention on Nuclear Safety, the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management, and on the Amendment to the Convention on the Physical Protection of Nuclear Material. The event will be held on **Tuesday, 27 September 2016, from 2.00 p.m. to 3.00 p.m. in Meeting Room M0E 79, M building, ground floor.**

### **Sustainability of Nuclear Facilities and Fuel Cycle: Focus on Decommissioning and Environmental Remediation**

This event will address strategies for the decommissioning of nuclear facilities and the remediation of contaminated sites (including former uranium mining sites) in a timely, safe and cost-effective way. The event will be held on **Tuesday, 27 September 2016, from 3.30 p.m. to 5.00 p.m. in Conference Room C3, C building, seventh floor.**

### **IAEA Curricula for Nuclear Medicine Professionals: Elevating Learning through Innovative Strategies**

This event will showcase an Agency initiative to enhance the value of learning activities through the IAEA Curricula for Nuclear Medicine Professionals, and highlight accreditation by international bodies for continuing medical education (CME) credits. The event will be held on **Tuesday, 27 September 2016, from 4.30 p.m. to 5:30 p.m. in Conference Room M5, M building, ground floor.**

## **Wednesday, 28 September 2016**

### **Global Challenges for Radiotherapy: Safe and Effective Use of New Technology**

New and complex radiotherapy technology is being introduced globally. This event will explore the considerable safety challenges that such technology poses as well as the various barriers to its effective use, and will consider possible solutions. The event will be held on **Wednesday, 28 September 2016, from 9.00 a.m. to 10.30 a.m. in Conference Room C2, C building, seventh floor.**

### **How to Maximize the Efficiency of Radiation Treatment — Integrating Cobalt-60 Machines and Linear Accelerators**

After highlighting the respective characteristics of linear accelerators (linacs) and cobalt-60 (Co-60) teletherapy machines, this event will introduce a balanced perspective of the advantages and disadvantages of the two technologies to help Member States take informed decisions based on local needs and conditions. The event will be held on **Wednesday, 28 September 2016, from 10.00 a.m. to 11.00 a.m. in Conference Room M4, M building, ground floor.**

## **Exchange of Regulatory Experiences between the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies and Other Regional Regulatory Associations and Networks**

This event aims to present achievements in the strengthening of regulatory bodies within the scope of the cooperation between the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies (FORO) and the Agency, notably the use of the System to Evaluate the Risk in Radiotherapy (SEVRRRA) tool to reduce risks in medical and industrial applications, to discuss regional strategies, and to identify possible lines of cooperation with other regional associations and networks. The event will be held on **Wednesday, 28 September 2016, from 10.00 a.m. to 12.00 noon and from 2.00 p.m. to 4.00 p.m. in Meeting Room M0E 79, M building, ground floor.**

## **Global Nuclear Safety and Security Network Plenary Meeting**

The objective of the plenary meeting of the Global Nuclear Safety and Security Network (GNSSN) is to report and discuss the role of the Agency's peer reviews and networking in strengthening nuclear safety globally. Member States will also exchange and share their experiences with implementing such services. The event will be held on **Wednesday, 28 September 2016, from 10.00 a.m. to 2.00 p.m. in Conference Room M6, M building, ground floor.**

## **Panel Discussion on the Deliverables and Effectiveness of the Technical Cooperation Programme in Africa**

This event consists of a panel discussion to share technical cooperation programme achievements and best practices in Africa. The event will be held on **Wednesday, 28 September 2016, from 10.30 a.m. to 12.30 p.m. in Conference Room C4, C building, seventh floor.**

## **Ready for Remediation: Addressing Central Asia's Enduring Uranium Legacy**

This event will describe the groundwork being done by international partners and the countries of Central Asia to prepare for clean-up of the uranium mining legacy in that region. The event will be held on **Wednesday, 28 September 2016, from 11.00 a.m. to 1.00 p.m. in Conference Room C2, C building, seventh floor.**

## **InTouch+: The New Event Communication Platform**

This event will introduce the successor to the InTouch system, used by Permanent Missions and National Liaison Officers when preparing TC-related events. InTouch+ will enable faster meeting acceptances and speedier processing of transactions. Member States will also have the option of using InTouch+ for Regular Programme events if they wish. The event will be held on **Wednesday, 28 September 2016, from 11.00 a.m. to 1.00 p.m. in Conference Room M7, M building, ground floor.**

## **Joining Efforts in the Fight against Cervical Cancer — A United Nations Joint Global Programme on Cervical Cancer**

This event will provide background information on cervical cancer and an introduction to the UN joint global programme on cervical cancer prevention and control for the reduction of disease incidence and mortality. The event will be held on **Wednesday, 28 September 2016, from 12.00 noon to 2.00 p.m. in Conference Room M4, M building, ground floor.**

## **Assisting Low and Middle Income Countries to Optimize Investments in Radiation Medicine**

An additional US \$20 billion/per annum is needed to expand access to essential cancer services worldwide. At this event, relevant experts will demonstrate that optimizing investments in radiation medicine within a comprehensive framework is crucial for effectively addressing the cancer issue, especially in low and middle income countries. The event will be held on **Wednesday, 28 September 2016, from 2.30 p.m. to 4.00 p.m. in Conference Room C2, C building, seventh floor.**

## **Thursday, 29 September 2016**

### **New Developments in Supporting Member States in the Safe Operation of Nuclear Installations**

This event will present new developments in the Agency's safety standards programme as well as in its review and training services that are relevant to the provision of support to Member States for capacity building and for achieving improvements in the safe operation of nuclear installations. The event will be held on **Thursday, 29 September 2016, from 10.00 a.m. to 11.30 a.m. in Meeting Room M0E 03, M building, ground floor.**

### **Coping with External Events Safety — The Agency's External Events Notification System and Experience Sharing**

In cooperation with Member States, the Agency is carrying out a project to continuously improve safety against external events. The Secretariat will give presentations on the development of the External Events Notification System and will share relevant experiences. The event will be held on **Thursday, 29 September 2016, from 11.00 a.m. to 12.00 noon in Conference Room M4, M building, ground floor.**

### **European Master of Science in Nuclear Engineering Award Ceremony**

For the fifth time, the Agency will hold a ceremony to honour graduates of the European Master of Science in Nuclear Engineering programme. The event will be held on **Thursday, 29 September 2016, from 2.00 p.m. to 3.30 p.m. in the M02 Foyer, M building, second floor.**

## **Friday, 30 September 2016**

### **Regulatory Cooperation Forum Plenary Meeting**

The purpose of the Regulatory Cooperation Forum's (RCF's) plenary meeting is to share, at an international level the knowledge and experience gained in regulatory infrastructure development and relevant support activities. This meeting will be held on **Friday, 30 September 2016, from 9.00 a.m. to 12.00 noon in Conference Room C3, C building, seventh floor.**

### **The Role of Nuclear Techniques in the Management of Patients with Cardiovascular Disease**

The role of nuclear techniques in the management of patients with cardiovascular disease will be discussed. A web-based app to assess the appropriate use of nuclear techniques will be presented. The event will be held on **Friday, 30 September 2016, from 1.00 p.m. to 3.00 p.m. in Conference Room C3, C building, seventh floor.**

## **Events Organized by Member States in Conjunction with the Conference's Session**

**Monday, 26 September 2016**

### **Nuclear Power History, Development and Engineering for Future**

Rosatom has prepared a special chronical film converted to 3D format. The film about the milestones in the IAEA history and evolution on nuclear energy will demonstrate in continuous mode. Two 3D displays 55" and 3D glasses will be available for visitors. The special 3D table for demonstration of the journey to the NPP construction site will put near. On 3D table display, visitors will have a chance to see the evolution of NPP construction site. The special Cake (model of NPP) will be presented for opening of the event. This event is organized by the Russian Federation. The event will be held on **Monday, 26 September 2016, from 2.00 p.m. to 5.00 p.m. in M01 Foyer, M building, first floor.**

### **Plenary Meeting of the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies**

The plenary meeting of the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies (FORO) has the objective of discussing the implementation of the joint Agency–FORO programme and synergies within FORO members. This event is organized by FORO. The event will be held on **Monday, 26 September 2016, from 2.30 p.m. to 4.30 p.m. in Meeting Room M0E 05, M building, ground floor.**

### **Effective Partnerships for Safety in the Arab Region**

The Arab Network of Nuclear Regulators (ANNuR) was created in 2010 with the purpose of strengthening and harmonizing the regulatory infrastructure in Arab countries as well as exchanging regulatory knowledge. This event is organized by the Arab Atomic Energy Agency. The event will be held on **Monday, 26 September 2016, from 3.00 p.m. to 5.00 p.m. in Meeting Room M0E 100, M building, ground floor.**

### **Innovative Tools for Public Acceptance of Nuclear Power**

This event will present innovative tools developed to improve the public acceptance of nuclear power and to guide national stakeholders. It will take the form of a board game. This event is organized by France. The event will be held on **Monday, 26 September 2016, from 3.00 p.m. to 5:00 p.m. in Conference Room C5, C building, seventh floor.**

**Tuesday, 27 September 2016**

### **Pacific Islands Regional Transport Network: Contributing to Transport Safety**

This event, organized by the Pacific Islands Regional Transport Network, will showcase the recent accomplishments and future plans of all of the regional transport safety networks from around the world (Asia, the Pacific Islands, Africa, and the Mediterranean). This event is coordinated by New Zealand. The event will be held on **Tuesday, 27 September 2016, from 10.00 a.m. to 11.00 a.m. in Conference Room M4, M building, ground floor.**

### **In-Vessel Melt Retention Strategies for High Power Reactors**

This event will showcase new experimental and theoretical investigations in the field of in-vessel melt retention (IVMR) as well as a harmonized methodology for the analysis of IVMR that can be used for various types of high power reactors in Europe and other regions. This event is organized by France. The event will be held on **Tuesday, 27 September 2016, from 10.00 a.m. to 12.00 noon in Meeting Room M0E 03, M building, ground floor.**

### **60 Years of Cooperation with the IAEA: Nuclear Energy as a Factor of Sustainable Development**

The workshop will be attended by the veterans of atomic energy and industry of the IAEA Member States, who were there at the inception of the IAEA and have contributed to the development of peaceful nuclear energy in the areas of nuclear power plant and research reactor construction, nuclear fuel, space exploration, nuclear medicine, radiation technologies and other projects aimed at improving the quality of people's life. Planned topics include international cooperation in the development of safe and reliable nuclear energy and prospects for further development of nuclear energy taking into account the experience of the past 60 years. This event is organized by the Russian Federation. The event will be held on **Tuesday, 27 September 2016, from 10.30 a.m. to 1.00 p.m. in Conference Room M7, M building, ground floor.**

### **Small Modular Reactors: Option for Safe Nuclear Power Technology for Nearterm Deployments**

This event will highlight design, safety, licensing, and site selection aspects of ACP100 Small Modular Reactor designs for safe and sustainable nuclear power technology for near-term deployments. ACP100 is a small modular reactor (SMR) which has been developed by China National Nuclear Corporation since 2004. The event will introduce ACP100 design principles, design parameters, technical features, safety design in depth, safety and licensing strategy, test and verification, application objective, preliminary economic assessment and demonstration project of ACP100 in China. This event is organized by China. The event will be held on **Tuesday, 27 September 2016, from 11.00 a.m. to 12.00 noon in Conference Room C2, C building, seventh floor.**

### **Presentation of Masters Programme in Nuclear Security**

This event will promote a unique Bulgarian Masters programme offering specialization in the field of nuclear security, and will discuss partnerships with other countries. This event is organized by Bulgaria. The event will be held on **Tuesday, 27 September 2016, from 1.00 p.m. to 2.30 p.m. in Conference Room C4, C building, seventh floor.**

## **IAEA's Support to Newcomers to Nuclear Power: The United Arab Emirates**

This event will highlight the impact of the Agency's support on the successful implementation of the United Arab Emirates nuclear power programme. It will include a short video showcasing the construction progress on the United Arab Emirates' first Nuclear Power Plant at Barakah, followed by a panel discussion. This event is organized by the United Arab Emirates. The event will be held on **Tuesday, 27 September 2016, from 1.30 p.m. to 2.30 p.m., in M02 Foyer, M building, second floor.**

## **Generation II and III Reactor Technology Research and Development Programme**

This event will highlight the research and development (R&D) added value for nuclear power safety, competitiveness, and the contribution that nuclear power can make to achieving the Paris Agreement goals, discuss R&D needs at State level versus international collaboration, and increase public understanding. This event is organized by Belgium. The event will be held on **Tuesday, 27 September 2016, from 3.30 p.m. to 5.00 p.m. in Conference Room C4, C building, seventh floor.**

## **Ceremony to Mark the First Agreements under the Agency's ICERR Scheme**

France will host a ceremony to celebrate the signing of the first agreements between the French Alternative Energies and Atomic Energy Commission (CEA) and 'affiliate' institutions under the IAEA-designated International Centre based on Research Reactors (ICERR) scheme. This event will be held on **Tuesday, 27 September 2016, from 4.00 p.m. to 4.20 p.m., in Conference Room C2, C building, seventh floor.**

## **Discussion on the Benefits of the Convention on Supplementary Compensation for Nuclear Damage**

Member States party to the Convention on Supplementary Compensation for Nuclear Damage (CSC) will provide an overview on why they joined the CSC, what they believe are the benefits of the CSC, and answer questions from the audience. This event is organized by Japan and the United States of America with Argentina, India, Montenegro, Romania, and the United Arab Emirates. The event will be held on **Tuesday, 27 September 2016, from 4.00 p.m. to 5.30 p.m. in Conference Room M4, M building, ground floor.**

## **Fast Reactors for Future Nuclear Power and Closed Fuel Cycle**

This event will provide insights by specialists from the Russian Federation on current Russian projects for the fast reactor development: commissioning of BN-800 sodium cooled reactor, development of industrial project BN1200, the "Breakthrough" project (lead cooled reactor with closed fuel cycle), MBIR test reactor for the GenIV technologies, the role of fast reactors in complex fuel cycle services of Russia's State Atomic Energy Corporation, Rosatom. This event is organized by the Russian Federation. The event will be held on **Tuesday, 27 September 2016, from 4.30 p.m. to 6.00 p.m. in Conference Room C2, C building, seventh floor.**

**Wednesday, 28 September 2016**

### **Pursuit of Further Safety in the Decontamination and Decommissioning of Damaged Reactors and Cleanup of Contaminated Sites**

This event is intended to share the experiences and insights gained by various stakeholders in addressing challenges in the decontamination and decommissioning (D&D) of damaged reactors and in the cleanup of contaminated sites. This event is organized by Japan. The event will be held on **Wednesday, 28 September 2016, from 10.00 a.m. to 12.00 noon in Conference Room C3, C building, seventh floor.**

### **Management and Oversight of an International Nuclear Supply Chain**

This event will feature two panel discussions on: management and oversight of an international nuclear supply chain, and nuclear supply chains and capacity building. This event is organized by France. The event will be held on **Wednesday, 28 September 2016, from 11.00 a.m. to 1.00 p.m. in Conference Room M5, M building, ground floor.**

### **International Day for the Total Elimination of Nuclear Weapons**

The International Day for the Total Elimination of Nuclear Weapons - as adopted by the General Assembly in its resolution A/68/32 - is devoted to furthering this objective, including through enhancing public awareness and education about the threat posed to humanity by nuclear weapons and the necessity for their total elimination, in order to mobilize international efforts towards achieving the common goal of a nuclear weapon free world. This event is organized by The Non-Aligned Movement (NAM). The event will be held on **Wednesday, 28 September 2016, from 11.30 a.m. to 12.30 p.m. in M02 Foyer, M building, second floor.**

### **International Framework for Nuclear Energy Cooperation (IFNEC) Informational Session**

The side event is an Informational Session about the International Framework for Nuclear Energy Cooperation (IFNEC). The Chair of the IFNEC Steering Group together with the Resident Representative of Argentina to the IAEA, will present information about IFNEC and the upcoming meetings in Buenos Aires, including the Latin American Nuclear Stakeholders Conference. The floor will then be open for further discussion. This event is organized by Argentina. The event will be held on **Wednesday, 28 September 2016, from 12.00 noon to 1.00 p.m. in Meeting Room M0E100, M building, ground floor.**

### **Knowledge Management and Capacity Training in International Nuclear Power Plant Projects**

The goal of this event is to share challenges, approaches, technology and experiences to ensure effective knowledge transfer and retention processes between exporters and host countries during complex nuclear power plant projects. This event is organized by Japan. The event will be held on **Wednesday, 28 September 2016, from 1.00 p.m. to 3.00 p.m. in Conference Room C3, C building, seventh floor.**

## **Information updated on 22 September 2016**

### **10 000 Equivalent Years of Nuclear Power Plant Operation and More to Come: Canada, China, France, India, Republic of Korea, Russian Federation, United Kingdom, and USA**

On the occasion of the Agency's 60th anniversary, several operating Member States will present their expertise in nuclear power plant operation since 1956 and will discuss the future of nuclear power. This event is organized by Canada, China, France, India, the Republic of Korea, the Russian Federation, the United Kingdom and the United States of America. The event will be held on **Wednesday, 28 September 2016, from 3.00 p.m. to 5.00 p.m. in Conference Room C4, C building, seventh floor.**

### **The French Innovation in Support of Nuclear Power Programmes**

A nuclear power programme relies on the development of innovative technologies in a wide range of fields including mining, commissioning, operating, capacity building, waste and spent fuel treatment and storage, and decommissioning. This event is organized by France. The event will be held on **Wednesday, 28 September 2016, from 3.30 p.m. to 5.30 p.m. in Conference Room M6, M building, ground floor.**

### **Heavy Water: Global Prospect, Growing Peaceful Demand (Iranian Case Study)**

This event will focus on the current and future non-nuclear global application of heavy water as well as on Islamic Republic of Iran's policy on the issue. This event is organized by the Islamic Republic of Iran. The event will be held on **Wednesday, 28 September 2016, from 4.00 p.m. to 6.00 p.m. in Conference Room M4, M building, ground floor.**

## **Thursday, 29 September 2016**

### **Technology against Intrusion of Critical Sites**

The vulnerability of nuclear plants to deliberate attack is of concern to all Member States with or without nuclear facilities. If terrorists could sufficiently gain access and damage safety systems, such an attack could release radiation into the environment that could lead to widespread contamination—irrespective of national borders. This event will discuss the types of technology used against intrusion of critical sites. This event is being organized by Belgium. The event will be held on **Thursday, 29 September 2016, from 11.30 a.m. to 1.00 p.m. in Conference Room M5, M building, ground floor.**

### **Informal Dialogue between Coastal and Shipping States**

This event will review activities that have been conducted within the framework of the informal 'Dialogue between Coastal and Shipping States' and discuss a possible roadmap for 2016–2017. This event is organized by Portugal. The event will be held on **Thursday, 29 September 2016, from 2.00 p.m. to 3.30 p.m. in Conference Room M6, M building, ground floor.**
