

Kathryn McCarthy

Vice President, Research and Development (Lab Director), Canadian Nuclear Laboratories, Canada

Dr. Kathryn McCarthy is Vice-President, Research and Development for the Canadian Nuclear Laboratories. From 2012 to January 2017 she was Director of Domestic Programs for Nuclear Science and Technology (NS&T) at Idaho National Laboratory (INL), and Director of the Light Water Reactor Sustainability Program Technical Integration Office for the U.S. Department of Energy Office of Nuclear Energy (DOE-NE). Additional past positions include Deputy Associate Laboratory Director for NS&T, and Systems Analysis Campaign National Technical Director for the DOE-NE Fuel Cycle R&D Program; she was employed at the INL for 25 years. She received her degrees in Nuclear Engineering: B.S., University of Arizona; M.S. and Ph.D., University of California, Los Angeles. Dr. McCarthy was a Guest Scientist at the Kernforschungszentrum in Germany in 1989, worked in the Soviet Union under the DOE US/USSR Young Scientist Program (1989-1990), at the Efremov and Kurchatov Institutes in Russia, and the Latvian Academy of Science.
