## Event Description

All Member States are cordially invited to attend this event, highlighting Member State support and achievements to date in the Renovation of the Nuclear Applications Laboratories (ReNuAL) project. The event will also provide an opportunity to look ahead to next steps in the ReNuAL initiative.

At the conclusion of the event, Member States that have contributed for the first time since the last general conference will be recognized and representatives of all contributing Member States will be invited to join for a group photograph.
