

Mr Ilham Mukriz Zainal

Researcher, Malaysian Nuclear Agency

Ilham Mukriz Zainal Abidin is Senior Researcher and Manager at the Malaysian Nuclear Agency's Industrial Technology Division, and Vice President of the Malaysian Society for Non-Destructive Testing (MSNT). He obtained his Doctorate in the field of non-destructive testing (NDT) from Newcastle University in the United Kingdom. He has published work on topics such as advanced NDT, innovative NDT systems, NDT qualification and certification schemes, and predictive/interpretive simulation models for NDT applications. He is currently an appointed member of the Ministry of Human Resources' Skills Development Advisory Committee for NDT, the National Technical Committee on NDT and the Malaysian National Accreditation Committee for the Department of Standards, Malaysia. He is also a member of the Malaysia National Aerospace NDT Board and the Expert Panel for the NDT Examination and Certification Committee for the Department of Skills Development.

Zainal Abidin is involved in the advancement of NDT at a national and international level as the Project Counterpart for the IAEA Technical Cooperation Project on NDT for Malaysia and the Lead Country Coordinator for the IAEA RCA (Asia and the Pacific) Project on NDT. In addition, he is the Liaison Technical Officer for the IAEA Collaborating Centre for NDT.
