

Ms Marina Belyaeva

Deputy Director, International Relations/ Director, Department of International Cooperation, State Atomic Energy Corporation ROSATOM, Russian Federation

Marina Belyaeva is a leading Russian expert in the area of non-proliferation, export control, safeguards implementation and nuclear energy promotion. She manages a number of ROSATOM projects in the area of international cooperation, such as the promotion of nuclear technology on global markets, the strengthening of nuclear safety and non-proliferation regimes, and the active participation in international events and forums. She is involved in the preparation of important international and bilateral agreements and is an active lecturer in regular training programs in the area of export control and nuclear non-proliferation. She also coordinates the overall cooperation of ROSATOM with the IAEA. In 2016, Belyaeva was designated as an alternate governor of the Russian Federation to the IAEA Board of Governors.
