

Mr Henrik Enevoldsen

Head, United Nations Educational, Scientific and Cultural Organization (UNESCO) Intergovernmental Oceanographic Commission (IOC), Science and Communication Centre on Harmful Algae, University of Copenhagen; Technical Secretary of the IOC Intergovernmental Panel on Harmful Algal Blooms (IPHAB)

Henrik Enevoldsen is Head of the IOC Science and Communication Centre on Harmful Algae which is hosted by the University of Copenhagen, Denmark. He has background in aquatic ecology and has more than 25 years of experience in development and implementation of international research and capacity building on harmful algae, nutrient loading, among others. He is a founding member of the International Society for the Study of Harmful Algae and has published on harmful algae ecology, harmful algal blooms (HAB) event data, international capacity building and programme development. He coordinates several international scientific working groups and regional networks in marine science, including the joint IOC-SCOR international research programme GlobalHAB and the IOC Intergovernmental Panel on HAB (IPHAB). He is actively involved in the preparations for the UN Decade for Ocean Science for Sustainable Development 2021-2030.
