

Ms Kathryn McCarthy

Vice-President Research and Development (R&D), Canadian Nuclear Laboratories, Canada

Kathryn McCarthy is Vice-President of R&D at the Canadian Nuclear Laboratories. From 2012 to 2017, Kathryn McCarthy was Director of Domestic Programs for Nuclear Science and Technology (NS&T) at the Idaho National Laboratory (INL) and Director of the Light Water Reactor Sustainability Program Technical Integration Office for the U.S. Department of Energy Office of Nuclear Energy (DOE-NE). Prior to that she was Deputy Associate Laboratory Director for NS&T at INL, National Technical Director for the Systems Analysis Campaign for the DOE-NE Fuel Cycle R&D Program and was involved in various other nuclear fission and fusion programs. She received her Bachelor of Science in Nuclear Engineering at the University of Arizona, and Master of Science and PhD in Nuclear Engineering at the University of California. In 1989, McCarthy was a guest scientist at the Kernforschungszentrum in Karlsruhe, Germany and worked in the Soviet Union under the DOE US/USSR Young Scientist Program (1989-1990) at the Efremov and Kurchatov Institutes in Russia and the Latvian Academy of Science.
