

SESSION 1: IMPROVING QUALITY of LIFE

PANEL 1.2: Nuclear technologies in industry, material sciences and beyond

Ilham Mukriz Zainal ABIDIN
Malaysia

Researcher, Malaysian Nuclear Agency

Ilham Mukriz Zainal Abidin is Senior Researcher and Manager at the Malaysian Nuclear Agency's Industrial Technology Division, and Vice President of the Malaysian Society for Non-Destructive Testing (MSNT); he is member of the Ministry of Human Resources' Skills Development Advisory Committee for NDT, the National Technical Committee on NDT and the Malaysian National Accreditation Committee for the Department of Standards, the Malaysia National Aerospace NDT Board and the Expert Panel for the NDT Examination and Certification Committee for the Department of Skills Development

Non-Destructive Testing (NDT) for Safety, Sustainability and Economic Growth

Ilham Mukriz Zainal Abidin

Ministerial Conference

**Nuclear Science and Technology:
Addressing Current and Emerging
Development Challenges**

28-30 November 2018
IAEA Headquarters, Vienna, Austria

#Atoms4Life

Organized by the
International Atomic Energy Agency

Non-Destructive Testing

Human safety

Ensure integrity

Predict reliability

Non-Destructive Testing

Quality assurance

Quality control
