

Shahab Sheibani

Senior Researcher and Associate Professor, Nuclear Science and Technology Research Institute (NSTRI), Islamic Republic of Iran

Dr Sheibani has been the Head of the Laboratory of Medical and Industrial Sealed Sources of NSTRI, including the Brachytherapy Laboratory, since 2005. Dr Sheibani was also Head of the Radioisotope Research Group from 2006-2013, and Head of the Nuclear Science Research School of NSTRI from 2007-2012, as well as the Representative of the Atomic Energy Organization of Iran (AEOI) in the National Cancer Control Committee's treatment Working Group since 2016. He has been part of the AEOI's Cancer Control Committee of AEOI since 2015 and is a main counterpart of IAEA technical cooperation projects in the field of radiopharmaceutical development and use of medical sources for cancer treatment.
