

# **Webinar on Nuclear Security Culture**

**Organized by the  
IAEA Division of Nuclear Security**

**Thursday, 30 September 2021**

**Scheduled at: 13:00, Vienna (Austria) Time**

**Duration: 2 hours**

**Information Sheet**

## Introduction

Nuclear security culture is the assembly of characteristics, attitudes and behaviour of individuals, organizations and institutions which serves as a means to support and enhance nuclear security. An appropriate nuclear security culture aims to ensure that the implementation of nuclear security measures receives the attention warranted by their significance.

Having a robust nuclear security culture and understanding the security risks associated with nuclear and other radioactive material and associated facilities is crucial for States' effective national nuclear security regimes. Promotion of nuclear security culture and putting this concept into practice in all parts of a national nuclear security regime is crucial.

In March 2020, the IAEA released Nuclear Security Series No. 38-T [Enhancing Nuclear Security Culture in Organizations Associated with Nuclear and Other Radioactive Material](#), to support Member States in strengthening nuclear security culture.

## Objectives

This webinar will elaborate on the nuclear security culture enhancement efforts of Member States, based on [NSS publications](#). In addition, the recently published technical guidance document NSS No. 38-T will be introduced during the webinar.

## Target Audience

The webinar is intended primarily for decisionmakers and/or senior staff from national regulatory bodies, and/or other organizations and institutions that are responsible for nuclear security, or that would be called upon to respond to a security event involving nuclear or other radioactive material, such as the military, police, border control, customs and other emergency response organizations.

## Working Language(s)

English

## Registration

Please register for the webinar using [this link](#) not later than **29 September 2021**.

After the registration and acceptance of your participation, you will receive an electronic mail containing information on how to access the webinar by following a hyperlink to join the WebEx meeting or by calling in by phone.

You can test your ability to connect to a WebEx meeting at the following link: <https://www.webex.com/test-meeting.html#>. Please contact your IT department if the test fails.

For additional help regarding registration, please contact Mr Yo Nakamura, IAEA Division of Nuclear Security (Y.Nakamura@iaea.org).

# Webinar Programme

## Opening Remarks

Ms Elena Buglova, *Director, Division of Nuclear Security, IAEA*

Mr Muhammad Khaliq, *Section Head, Nuclear Materials and Facilities Section, Division of Nuclear Security, IAEA*

## Overview of the IAEA's Nuclear Security Culture Programme

Mr Yo Nakamura, *Nuclear Security Culture Officer, Nuclear Materials and Facilities Section, Division of Nuclear Security, IAEA*

## Challenges in promoting and sustaining effective Nuclear Security Culture: Perspectives from Member States

Mr. Khairul Khairul, *Senior Nuclear Security Officer, Nuclear Security Division at Center for Informatics and Nuclear Strategic Zone Utilization-National Nuclear Energy Agency (BATAN), Indonesia*

Mr. Vladimir Yankov, *Head of Nuclear Security, Security Division, Kozloduy Nuclear Power Plant, Bulgaria*

Mr. Mohd Nathir Mohd Kamari, *Senior Assistant Director, Medical Radiation Surveillance Division, Ministry of Health, Malaysia*

Mr. Carsten Speicher, *Technical Director, Department of Nuclear Energy Supervision and Radiation Protection, Ministry of the Environment, Climate Protection and the Energy Sector, Baden-Württemberg, Germany*

Ms. Yoko Kawakubo, *Chief, International Capacity-Building Support Office, Integrated Support Center for Nuclear Nonproliferation and Nuclear Security (ISCN), Japan Atomic Energy Agency (JAEA)*

## Q&A and Conclusions
