Explanatory Note

*Security of Nuclear and Other Radioactive Material in Transport (NST053)*

The draft text for review, entitled *Security of Nuclear and Other Radioactive Material in Transport*, was prepared as a draft Technical Guidance document to be issued in the IAEA Nuclear Security Series and has already been reviewed through consultants’ meetings, as well as by the Nuclear Security Guidance Committee (NSGC).

The objective of this draft text, as accepted by the NSGC, is to provide detailed guidance to States and their competent authorities on how to implement and maintain a nuclear security regime for the transport of nuclear and other radioactive material.

Comments are requested in relation to:

- **Relevance and usefulness** — Are the stated objectives appropriate, and are they met by the draft text?
- **Scope and completeness** — Is the stated scope appropriate, and is it adequately covered by the draft text?
- **Quality and clarity** — Does the guidance in the draft text represent the current consensus among specialists in the field, and is it expressed clearly and coherently?
- ** Appropriateness of guidance on safety–security interfaces** — Are the paragraphs of the draft text that address interfaces between safety and nuclear security appropriate?

Comments of an editorial nature will be considered; however, it should be noted that the draft text will be comprehensively edited by the IAEA Secretariat.

Any comments should be made in English, should refer to the relevant paragraph number in the draft text being reviewed, and should propose alternative text where appropriate. Please use the attached Form for Comments to record all comments.

The responsible IAEA officer is Mr David Ladsous of the Department of Nuclear Safety and Security, who may be contacted for further information in connection with this subject by telephone at: +43 1 2600 23149 or via email at: D.Ladsous@iaea.org.

Any comments should be sent through the established official channels to the responsible IAEA officer by 28 November 2022.
