

Tomoaki Tamaki

Professor, Fukushima Medical University, Fukushima, Japan

Professor Tomoaki Tamaki is a radiation oncologist, Chair and Professor of the Department of Health Risk Communication, and Professor of the Department of Radiation Oncology at Fukushima Medical University, Japan.

Professor Tamaki has worked as a consultant in the IAEA Human Health Division, 2010–2011, and been actively involved in many Asia and the Pacific regional Technical Cooperation projects in radiation oncology under the Regional Cooperative Agreement for Research, Development and Training Related to Nuclear Science and Technology for Asia and the Pacific (RCA). Since 2014, he has served as a member of the RCA Programme Advisory Committee.

Professor Tamaki contributed to establishing the Federation of Asian Organizations for Radiation Oncology (FARO) as the deputy Secretary General and is currently a Council Officer and working with other Asian colleagues to foster the new generation of leaders in radiation oncology as the Chair of its Leadership Development Program Committee.

He is currently working both as a radiation oncologist and the Director of Office of Risk Communication in the Fukushima Health Management Survey at Fukushima Medical University.
