

Training Workshop on Hands-on Operation and Maintenance of Electrostatic Accelerators

Hosted by the

Government of Croatia

through the

Ruđer Bošković Institute

Zagreb, Croatia

2-6 October 2023

Ref. No.: EVT2205736

Information Sheet

Introduction

Accelerator-based technologies are associated with a broad range of applications that have a societal and technological impact and can contribute to the economic development of Member States. The utilization of accelerators enhances innovation in a variety of fields, such as health, materials research, cultural heritage, environment, energy and natural resources. In this context, accelerator applications are one of the thematic areas where the International Atomic Energy Agency (IAEA) supports its Member States in strengthening their capabilities to adopt and benefit from the usage of accelerators.

A number of IAEA Member States are operating small and medium sized accelerator facilities with a wide spectrum of technical expertise. Many of these facilities are facing difficulties in training new personnel staff and improving the knowledge and skills of more senior accelerator technicians, engineers and scientists. The need for training on accelerator technologies is evident and the IAEA is responding to such needs.

The Nuclear Science and Instrumentation Laboratory and the Physics Section of the IAEA support Member States with accelerator facilities through coordinated research projects and the technical cooperation programme, which, for example, provide expertise, assist in setting up and maintaining the

facilities, offer instrumentation support and organize trainings.

Objectives

The objective of the event is to deepen the participants' knowledge and skills in specific accelerator-related topics, including vacuum and high-pressure technologies, ion sources at electrostatic accelerators, ion beam optics, beam tuning and beam current measurements.

Target Audience

The event is intended for young accelerator operators, engineers and scientists working at accelerator facilities, with the aim of widening their knowledge and skills related to electrostatic accelerators through lectures and hands-on training on specific issues.

Working Language(s)

English.

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **22 May 2023**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by the above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Please note that the IAEA is in a transition phase to manage the entire registration process for all regular programme events electronically through the new InTouch+ (<https://intouchplus.iaea.org>) facility, which is the improved and expanded successor to the InTouch platform that has been used in recent years for the IAEA's technical cooperation events. Through InTouch+, prospective participants will be able to apply for events and submit all required documents online. National authorities will be able to use InTouch+ to review and approve these applications. Interested parties that would like to use this new facility should write to: InTouchPlus.Contact-Point@iaea.org.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **22 May 2023**.

Visas

Participants who require a visa to enter Croatia should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Croatia.

IAEA Contacts

Scientific Secretary:

Mr Natko Skukan

Division of Physical and Chemical Sciences
Department of Nuclear Sciences and Applications
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA

Tel.: +43 1 2600 28624

Fax: +43 1 26007

Email: N.Skukan@iaea.org

Co-Scientific Secretary:

Mr Sotirios Charisopoulos

Division of Physical and Chemical Sciences
Department of Nuclear Sciences and Applications
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA

AUSTRIA

Tel.: +43 1 2600 21637/28224

Fax: +43 1 26007

Email: S.Charisopoulos@iaea.org

Administrative Secretary:

Ms Gaukhar Permetova

Division of Physical and Chemical Sciences

Department of Nuclear Sciences and Applications

International Atomic Energy Agency

Vienna International Centre

PO Box 100

1400 VIENNA

AUSTRIA

Tel.: +43 1 2600 28227

Fax: +43 1 26007

Email: G.Permetova@iaea.org

Subsequent correspondence on scientific matters should be sent to the Scientific Secretaries and correspondence on other matters related to the event to the Administrative Secretary.
