

Dr Gabriele I. C. Schneider

Executive Director, Namibian Uranium Association, Swakopmund, Namibia

Gabi Schneider is the Executive Director of the Namibian Uranium Institute. She holds an MSc and a PhD in Economic Geology. She joined the Namibian Geological Survey in 1985, and served as its Director from 1996 to 2016. Her professional experience covers economic, exploration, environmental geology, and management. She is an honorary life member of the Geological Society of Namibia, an honorary fellow of the Geological Society of London, and registered with the Namibian Geoscience Council and the South African Council for Natural Science Professionals.

Dr Schneider serves on a number of working groups of the WNA and the IAEA, on the scientific committee of UNESCO's International Geoscience Programme, on Namibia's Geoscience Council, on the Global Geoparks Council, on the Commission for the Implementation of the World Heritage Convention in Namibia, and as trustee of the Namibian Institute of Mining and Technology. She played a leading role in the Strategic Environmental Assessment of the Namibian Uranium Province.
