

## **Soehartati Gondhowiardjo**

**Radiation Oncologist at Cipto Mangunkusumo General Hospital Jakarta, Indonesia**

Soehartati Gondhowiardjo, MD, PhD is a fulltime Professor and Radiation Oncologist at Cipto Mangunkusumo General Hospital Jakarta (RSCM), Faculty of Medicine Universitas Indonesia. Currently she is the Coordinator for Comprehensive Cancer Care at RSCM, and a member of the Medical Committee. She is also the co-founder of Indonesian Radiation Oncology Society (IROS), South East Asian Radiation Oncology Group (SEAROG), and Federation

of Asian Organizations for Radiation Oncology (FARO), where she served as the past-president of each society and is still active as their Advisory board member.

Prof. Tati became a radiologist in 1987 and studied Radiation Oncology in Universitaet Muenster – Germany in 1988. She had her Ph.D. on EBV and cell proliferation activity of nasopharyngeal as predictive factors of nasopharyngeal cancer radiation responses in 1998, and became a Professor at Universitas Indonesia in 2005.

She received The Honorary Member Award for her contribution to the field of radiation oncology at ESTRO 37, Barcelona. Among her many interests are Molecular Oncology, Nasopharyngeal Cancers, Breast Cancer, Stereotactic Radiotherapy, and Global Oncology, for which she has been actively sharing her expertise in numerous international forums and publications.

She was also the past-president of Indonesian Society for Oncology (ISO), and a member of Council for the Asian Clinical Oncology Society (ACOS), the European Society for Radiotherapy and Oncology (ESTRO), Pediatric Radiation Oncology Society (PROS) and also responsible as the National Project Coordinator/Principal Investigator for several IAEA projects. Nationwide, she also served as the Chairperson of National Cancer Control Committee (NCCC) in 2014 - 2019.
