

Edwin Perezmella

Director of the Liga Dominicana Contra el Cancer, Dominican Republic

In his role as Director of the Liga Dominicana Contra el Cancer, Mr Perezmella plays a key role ensuring the sustainability, process and technological development of the institution. He works hands-on with the Medical Team to provide cost effective solutions to their needs with patient benefit in mind at all times.

Some of the achievements over the years include:

- Provide access to Radiotherapy treatment for poor and resource strapped patients.
- First Cancer Prevention Center (Ambulatory services for Breast, Prostate, cervix, others).
- PET SCAN services for the mass.
- HDR (high-dose rate) brachytherapy.

The League has been working with cancer patients for 80 years in order to carry the flame to future generations. The goal is to support all cancer patients in the Dominican Republic on their journey.
