

Ms Maria Korsnick

President and CEO,
Nuclear Energy Institute

Biography

Ms Maria Korsnick is President and CEO of the Nuclear Energy Institute, the nuclear industry's policy organization in Washington, D.C.

Drawing on her engineering background, experience in reactor operations and knowledge of energy policy and regulatory issues, Maria works to increase recognition of nuclear energy's contributions to the economy, the environment, and energy independence. She began her career at Constellation and held positions of increasing responsibility, including engineer, operator, manager, site vice president, corporate vice president, and chief nuclear officer.
