

Safeguards in 2025

Implementing effective IAEA safeguards for nuclear non-proliferation

Verification and monitoring activities in relation to the JCPOA

Foster a respectful, inclusive and diverse workplace

Maintain enhanced readiness to return to the DPRK if and when requested

Implement effective safeguards and draw soundly based safeguards conclusions for all States

Offer tailored capacity building to States, while enhancing partnerships in support of IAEA verification capabilities

Further develop and align safeguards approaches, processes, tools and methodologies for the implementation of safeguards

Encourage and assist States to amend or rescind their original Small Quantities Protocols and to bring into force Additional Protocols
