

International Atomic Energy Agency

GC(X)/RES/217
30 September 1966
GENERAL Distr.

General Conference

Tenth regular session

Agenda item 13(b)
(GC(X)/343)

THE AGENCY'S PROGRAMME AND BUDGET

(b) PROGRAMME FOR 1967-68 AND BUDGET FOR 1967

Resolution adopted during the 110th plenary meeting on 28 September 1966

REVIEW OF THE AGENCY'S ACTIVITIES

The General Conference,

- (a) Having examined the report of the Board of Governors for the year 1965-66^{1/},
- (b) Realizing the significance of the Director General's opening address regarding the review of the role and activities of the Agency over the last decade^{2/}, and also of similar other views expressed by Member States during the Conference,
- (c) Noting with satisfaction that the Agency's projected range of activities in advanced fields of scientific work is of direct interest to Member States and gives due emphasis to the needs of the developing countries,
- (d) Conscious of the importance of and the need for a systematic and objective review of the Agency's activities and programmes during the first decade of its existence,
- (e) Considering that an intensified review at this stage of the Agency's existence and of its role in furthering the peaceful uses of atomic energy would be of great interest to Member States in order to devise ways and means of giving further impetus to the vital part that it has to play in the years to come,

(f) Mindful of the need to review the Agency's Long-Term Programme^{3/} to take into account significant technical developments that have occurred since the current long-term plan was formulated,

(g) Bearing in mind the fact that the present position of the Agency, in relation to the demands made on it, particularly by the developing countries, should correspond to the realities and the requirements of a changing situation, and

(h) Desirous that the Agency, responding to the unanimous wishes of the developing countries to widen its range of contribution and strengthening the bonds of co-operation between the developed and developing countries in the peaceful uses of atomic energy, should endeavour to increase its role in the economic and technological advancement of the developing countries in the quickest and most practical manner possible,

1. Requests the Board, in consultation with the Director General, to review the activities of the Agency in order to find ways and means to increase its assistance to developing countries;
2. Suggests that the Board of Governors pay particular attention in this review to the needs and views of the developing countries; in this regard the Board of Governors may wish to consider inviting, according to its procedures, representatives of developing countries to take part in the discussions;
3. Invites the Board to undertake promptly a systematic and objective review of the Agency's future activities;
4. Requests the Director General to address a circular letter to all Member States inviting their recommendations and viewpoints concerning the task of the Board mentioned above, and to prepare a working paper for the Board;
5. Requests the Director General to place at the disposal of the Board all information, facilities and staff necessary for the implementation of this resolution; and
6. Requests the Board of Governors to submit to the General Conference at its eleventh regular session the observations and recommendations resulting from this review.
