ELECTION OF MEMBERS TO THE BOARD OF GOVERNORS

Report of the General Committee

1. Rule 86 of the Rules of Procedure requires the General Committee to determine the number of elective places on the Board of Governors which must be filled by the General Conference so as to ensure compliance with the provisions of Article VI.A.3 of the Statute. The Committee accordingly notifies the Conference that it has determined that seven Members must be elected to the Board during the present session. In this connection, the Committee invites attention to the last provision in the Article, which stipulates that

"... no member in the category of members elected to the Board by the General Conference in any one term of office shall be eligible for re-election in the same category for the following term of office." 2/

2. Rule 86 further requires the General Committee to specify the geographical areas in respect of which a Member or Members must be elected so as to ensure that after the end of the session the Board shall include three Members each elected by the Conference from the areas of Latin America and of Africa and the Middle East, and one Member from each of the remaining areas, except North America, specified in Rule 83. In compliance with this provision, the Committee hereby specifies that elections are required at the current session in respect of five geographical areas, as follows:

- 1 Member from Latin America, 1 Member from South Asia, and
- 1 Member from Eastern Europe, 1 Member from the Far East,
- 2 Members from Africa and the Middle East,
