Twenty-fifth regular session  
Item 11 of the provisional agenda  
(GC(XXV)/640)

## SCALE OF ASSESSMENT OF MEMBERS' CONTRIBUTIONS FOR 1982

1. A draft of a resolution whereby the General Conference could, in accordance with Article XIV.D of the Statute, set the scale of assessment of Members' contributions to the Agency's Regular Budget for 1982 is herewith submitted to the Conference. The scale annexed to the resolution has been prepared in accordance with the principles which the Conference established in 1959 [1], amended in 1977 [2] and revised in 1980 [3]. The scale is based on the Agency's membership as of 15 July 1981.
2. A list has been drawn up of Members meeting the criteria laid down in the revised principles established by the General Conference in 1980 for partial relief in respect of their assessment for the safeguards component of the Regular Budget. This list comprises 74 Members, the same number as in the previous year, and is set forth in Table 2 of the Appendix.
3. It will be noted that the resolution would also provide for approval by the General Conference of the base rate of assessment for each Member. This has been derived from the scale used by the United Nations to assess contributions from its Members to its Regular Budget for 1981, adjusted in accordance with established procedures to compensate for differences in membership between the Agency and the United Nations.
4. The computations that were made in order to establish both the individual base rates and the resulting scale of assessment are reproduced for the information of the Conference in the Appendix.

2. Determines, pursuant to Financial Regulation 6.08 [\*\*], that in the event of a State becoming a Member of the Agency during the remainder of 1981 or 1982, it shall be assessed as appropriate:

- (a) For an advance or advances to the Working Capital Fund, in accordance with Financial Regulation 7.03 [\*\*\*]; and
- (b) For a contribution or contributions towards the Agency's Regular Budget, in accordance with the principles the Conference has established for that purpose.

MEMBERS' CONTRIBUTIONS TO THE AGENCY'S REGULAR BUDGET FOR 1982

The computation of individual base rates and the resulting scale  
of assessment

1. The first step in computing the individual base rates and the resulting scale of assessment of Members' contributions to the Agency's Regular Budget for the year 1982 consists of dividing the total amount to be assessed into a "non-safeguards" component and a "safeguards" component [1]. The total assessment proposed is \$77 344 000 [2], of which the non-safeguards and safeguards components are \$51 731 000 and \$25 613 000 respectively. The latter component consists of the appropriation specifically proposed for safeguards (\$25 693 000) less income of \$80 000 which it is estimated will be received from non-member States during 1982.

2. The next step is to derive a base rate of assessment for each Member of the Agency [3] based upon the scale used by the United Nations to assess contributions from its Members to its budgets for the year 1980-1982 [4]. This is done in Table 1 below, the coefficient of 1.011096 used in column (4) being the same as that used in the preceding year. Accordingly, with no change in the membership of the Agency, the base rates of assessment for all 110 Member States are the same for 1982 as they were for 1981.

[a] See General Assembly Resolution 34/6

[b] In certain cases the coefficient is not applied - see paragraph 3 below.

3. It will be seen from the end of the foregoing table that the United Nations percentage assessments for Members of the Agency that were also Members of the United Nations amount to 97.90 per cent, and that the United Nations rate of assessment for the other Members of the Agency amount to 1.28 per cent. To the figure of 99.18 per cent, obtained by combining these two percentages, a coefficient is applied to establish the base rates of assessment for all Member States of the Agency which will give a total of 100.00 per cent. In accordance with the principles established by the General Conference [5], however, the coefficient is not applied in the case of the Member bearing the United Nations highest assessment, nor of the 28 Members each bearing the United Nations lowest assessment. This coefficient is therefore calculated as follows:

	United Nations percentage assessments	Agency base rate of assessment
	-----	-----
Total	99.18	100.00
Less: For the Member bearing the highest assessment	25.00	25.00
For the 28 Members bearing the lowest assessment (28 x 0.01)	0.28	(25.28)
	-----	-----
Totals for calculation of the coefficient	73.90	74.72

$$\text{Coefficient } \frac{74.72}{73.90} = 1.011096$$

4. It is now necessary to determine the respective shares of the safeguards expenses to be borne by Members on the list drawn up by the Director General for the purpose of identifying the Members who receive partial relief in respect of their assessment for the safeguards component of the Regular Budget in accordance with the revised arrangements established by the Conference in 1980 [6].

[5] See Resolution GC(III)/RES/50, sub-paragraph (a) of the operative paragraph.

[6] The list is drawn up as prescribed in Resolution GC(XXIV)/RES/376, sub-paragraph 3(b).

[a] The coefficient is obtained by dividing the percentage of the safeguards component remaining to be financed (98.14938%) by the total of the base rate of assessment of the 36 Members listed in the table above (89.36%).

6. The individual share of each member in the safeguards component of the total assessment having thus been determined, the next step is to calculate each Member's share of the non-safeguards component. This is done by applying each Member's base rate of assessment to the non-safeguards component (\$51 731 000) [9]. The results are set forth in Table 4 below, which shows in column (6) the total assessment of each Member State. Column (7) shows the resulting scale of assessment for 1982, the percentage assessments being expressed to five places of decimals in order to reflect each Member's share of the Regular Budget to the required accuracy.
