Twenty-eighth regular session

THE ANNUAL REPORT FOR 1983

Addendum

Tables A and B in the Annex hereto should be included in the chapter entitled "Safeguards".

A N N E X

TABLE A
Installations under INFCIRC/66/Rev.2
safeguards agreements or selected for
inspection under voluntary-offer agreements in NW States

Installation category (see Table 12)	Number of installations		
	INFCIRC/66/ Rev.2	Voluntary offer ^{a/}	TOTAL ^{b/}
A Power reactors	0	4	4 (3)
D Fuel fabrication plants	0	2	2 (1)
E Enrichment plant ^{c/}	0	1	1 (0)
G Separate storage facilities	5 ^{d/}	0	5 (4)

a/ Two reactors, one fabrication plant and the enrichment plant were selected for inspection starting in the second half of 1983; shortly afterwards the Agency stopped inspecting the two reactors and the fabrication plant previously inspected.

b/ Numbers for 1982 are indicated in parentheses for comparison.

c/ Under construction.

d/ One storage installation is listed here as safeguarded under an INFCIRC/66/Rev.2 agreement although it was also inspected under the voluntary offer agreement.

TABLE B

Approximate quantities of nuclear material subject to Agency safeguards^{a/}
in NW States pursuant to INFCIRC/66/Rev.2 agreements and in MBAs
selected for inspection under voluntary offer agreements

Type of nuclear material	Quantity of material (t)		Quantity in SQ ^{b/}
	INFCIRC/66/ Rev.2	Voluntary offer	
Plutonium contained in irradiated fuel	7.1	2.9	1252 (1147)
Separated plutonium	1.5	0.9	297 (309)
LEU (less than 20% uranium-235)	990	1100	442 (279)
Source material (natural or depleted uranium and thorium)	0	75	5 (3)
TOTAL			1996 (1733)

a/ The table does not include small quantities of HEU rounding to zero SQ.

b/ Numbers for 1982 are indicated in parentheses for comparison.
