Implementation of the NPT safeguards agreement between the Agency and the Democratic People's Republic of Korea

Resolution adopted on 20 September 2013 during the tenth plenary meeting

The General Conference,

(a) Recalling previous reports by the Agency’s Director General regarding nuclear activities in the Democratic People’s Republic of Korea (DPRK), as well as relevant resolutions of the Agency’s Board of Governors and General Conference,

(b) Recalling with deep concern the steps taken by the DPRK which led the Board of Governors to find that the DPRK was in non-compliance with its safeguards agreement and to report the DPRK’s non-compliance to the United Nations Security Council,

(c) Further recalling with grave concern the nuclear tests by the DPRK on 9 October 2006, and on 25 May 2009 in violation of United Nations Security Council resolution 1718 (2006),

(d) Conscious that a Korean Peninsula free of nuclear weapons would contribute positively to regional and global peace and security,

(e) Recognizing the importance of the Six-Party Talks, in particular all the commitments made by the Six Parties in the 19 September 2005 Joint Statement, and on 13 February and 3 October 2007, including the commitment to denuclearization,

(f) Recalling the important role that the Agency has played in monitoring and verification activities at the Yongbyon nuclear facilities, including as agreed in the Six-Party Talks,

(g) Noting that the Agency unfortunately was not able to conduct monitoring and verification activities in the DPRK following the discontinuation of the DPRK’s invitation to the Agency, as noted in the Director General’s report (GC(57)/22),

(h) Noting with deep concern the DPRK’s decision to cease all cooperation with the Agency, its demand on 14 April 2009 that Agency inspectors leave the DPRK and remove all Agency containment and surveillance equipment from its facilities, and the subsequent actions announced by the DPRK, including the reactivation of all facilities at Yongbyon, reprocessing
of spent fuel and weaponization of the extracted plutonium, and development of uranium enrichment technology,

(i) Noting the Director General’s report that the nuclear programme of the DPRK remains a matter of serious concern, and that recent statements by the DPRK of its intention to readjust and restart its nuclear facilities at Yongbyon, including the 5 MW(e) graphite-moderated reactor and the uranium enrichment facility, as well as previous statements about uranium enrichment activities, and the construction of a light-water reactor are deeply regrettable, and noting that such actions are clear violations of relevant United Nations Security Council resolutions,

(j) Stressing the importance of a complete understanding of the DPRK’s entire nuclear programme,

(k) Expressing serious concern about the new activities at Yongbyon outlined in the Director General’s report, including those related to the 5 MW(e) reactor, the extension of the uranium enrichment facility at Yongbyon, and the continued construction activities at the light-water reactor,

(l) Noting the Director General’s report that, contrary to the requirements of relevant United Nations Security Council resolutions, the DPRK has not abandoned its existing nuclear programme in a complete, verifiable and irreversible manner or ceased all related activities, and

(m) Having considered the Director General’s report contained in document GC(57)/22,
