# Implementation of the NPT safeguards agreement between the Agency and the Democratic People's Republic of Korea

## Resolution adopted on 24 September 2021 during the twelfth plenary meeting

### The General Conference,

- (a) Recalling previous reports by the Agency's Director General titled *Application of Safeguards in the Democratic People's Republic of Korea* (DPRK) regarding nuclear activities in the DPRK, as well as relevant resolutions of the Agency's Board of Governors and General Conference,
- (b) Recalling with deep concern the steps taken by the DPRK which led the Board of Governors in 1993 to find that the DPRK was in non-compliance with its safeguards agreement and to report the DPRK's non-compliance to the United Nations Security Council,
- (c) Further recalling with gravest concern the nuclear tests by the DPRK on 9 October 2006, on 25 May 2009, on 12 February 2013, on 6 January 2016, on 9 September 2016, and on 3 September 2017, in violation and flagrant disregard of United Nations Security Council resolutions 1718 (2006), 1874 (2009), 2087 (2013), 2094 (2013), 2270 (2016), 2321 (2016), 2356 (2017), and 2371 (2017),
- (d) Also recalling the inter-Korean Summits, the Summits between the United States and the DPRK, and the Summits between China and the DPRK and the Summit between Russia and the DPRK of 2018 and 2019, and highlighting the need for relevant parties to fulfil their commitments, including the DPRK's commitment to complete denuclearization of the Korean Peninsula, agreed in the Panmunjeom Declaration of 27 April 2018, the US-DPRK Joint Statement of 12 June 2018, and the Pyongyang Joint Declaration of 19 September 2018,

- (e) Conscious that a Korean Peninsula free of nuclear weapons would contribute positively to regional and global peace and security,
- (f) Reiterating the international community's firm opposition to the DPRK's possession of nuclear weapons,
- (g) Noting the DPRK's statement in April 2018 concerning a moratorium on nuclear tests and efforts towards dismantlement of the Punggye-ri nuclear test site, and noting the Acting Director General's report referencing the DPRK's 1 January 2019 announcement that it "would neither make and test nuclear weapons any longer nor use and proliferate them...",
- (h) Expressing grave concern that on 3 September 2017 the DPRK conducted its sixth nuclear test, which it claimed was a "hydrogen bomb for ICBM", and regarding its 1 January 2018 announcement that during 2017 it had accomplished the goal of "perfecting the national nuclear forces", and noting the Director General's reports referencing the DPRK's 1 January 2020 announcement that there is no ground for the DPRK to get unilaterally bound to the commitment to halt its nuclear test and shut down the nuclear-test ground and the January 2021 DPRK announcement of developments in its nuclear weapons programme in pursuit of capabilities such as tactical nuclear weapons as well as a 'super-large hydrogen bomb',
- (i) Reiterating the requirements of relevant United Nations Security Council resolutions that the DPRK shall immediately abandon all nuclear weapons and existing nuclear programmes in a complete, verifiable and irreversible manner, and immediately cease all related activities,
- (j) Recognizing the importance of the Six-Party Talks, in particular all the commitments made by the Six Parties in the 19 September 2005 Joint Statement, and on 13 February and 3 October 2007, including the commitment to denuclearization,
- (k) Recalling the important role that the Agency has played in monitoring and verification activities at the Yongbyon nuclear facilities, including as agreed in the Six-Party Talks, in accordance with its mandate,
- (l) Noting with deep concern the DPRK's decision to cease all cooperation with the Agency, and its demand on 14 April 2009 that Agency inspectors leave the DPRK and remove all Agency containment and surveillance equipment from its facilities,
- (m) Noting the activities at some of the DPRK's nuclear facilities as indicated in the Director General's report, and echoing the Director General's assessments of deeply troubling new indications consistent with the operation of the 5MW(e) reactor and a reprocessing campaign at the Radiochemical Laboratory, that the DPRK's nuclear activities remain a cause for serious concern, and that the continuation of the DPRK's nuclear programme is a clear violation of relevant United Nations Security Council resolutions and is deeply regrettable,
- (n) Noting that the Agency remains unable to carry out verification activities in the DPRK, and noting that the Agency's knowledge of developments in the DPRK's nuclear programme is limited and declining,
- (o) Reiterating support for the IAEA's efforts to enhance readiness to play its essential role in monitoring and verifying the DPRK's nuclear programme, in accordance with its mandate, stressing the importance of a complete understanding of that programme through the collection and evaluation of safeguards relevant information, welcoming in this regard continued intense efforts by the Secretariat to monitor the DPRK's nuclear programme, and welcoming the report by the Director General that once a political agreement has been reached among the countries

concerned, the Agency is ready to return to the DPRK in a timely manner, if requested to do so by the DPRK and subject to approval by the Board of Governors, and
