5. On 14 July 2015, the E3/EU+3 (China, France, Germany, the Russian Federation, the United Kingdom and the United States of America, with the High Representative of the European Union for Foreign Affairs and Security Policy) and Iran agreed on a Joint Comprehensive Plan of Action (JCPOA).<sup>4</sup> The provisions of the JCPOA state, inter alia, that it “builds on” the implementation of the JPA<sup>5</sup> and that the “full implementation of the JCPOA will ensure the exclusively peaceful nature of Iran’s nuclear programme”.

6. The Director General welcomed the JCPOA, stating that it would “facilitate the IAEA’s further verification work in Iran”.<sup>6</sup> He informed IAEA Member States that the Agency would be asked to “monitor and verify the nuclear-related measures set out in the agreement” and that he would then report to and consult the Board of Governors on this request and how to secure the necessary financial resources for the Agency.

subsequently seek ratification and entry into force, consistent with the respective roles of the President and the Majlis (Parliament); and

- that it will fully implement the modified Code 3.1 of the Subsidiary Arrangements to its Safeguards Agreement as long as the Safeguards Agreement remains in force.

The Agency's verification and monitoring of Iran's nuclear-related commitments as set out in the JCPOA is without prejudice to Iran's Safeguards Agreement and Additional Protocol thereto.

11. Subject to the authorization of the Board of Governors, the Director General will implement the necessary verification and monitoring of Iran's nuclear-related commitments as set out in the JCPOA (see para. 8.i) consistent with the Agency's standard safeguards practices. These verification and monitoring activities will commence on "Implementation Day". To facilitate the activities, the Agency will need to carry out "preparatory" activities between "Adoption Day" and "Implementation Day".<sup>11</sup>

## **C.2. Joint Commission**

12. As indicated above (para. 8), the Agency and the Joint Commission are requested to "consult and exchange information, where appropriate, as specified in the JCPOA". The consultations and exchange of information between the Agency and the Joint Commission specified in the JCPOA are as follows:

- The Agency is expected to report to the Working Group of the Joint Commission that the construction of the modernised Arak reactor is consistent with the approved final design (Annex I, Section B.6).
- The Agency is expected to share, with the Joint Commission Participants, the content of the enrichment and enrichment R&D plan, as submitted by Iran as part of its AP initial declaration (Annex I, Section I.52).
- The Agency is expected to receive, from the Coordinator of the Joint Commission, information relating to proposals submitted to the Commission by States seeking to engage in the supply, sale or transfer to Iran of nuclear-related items (Annex IV, Section 6.4.1).

(b) Participation in meetings:

- The Agency may be invited to attend meetings of the Procurement Working Group of the Joint Commission as an observer (Annex IV, Section 6.4.6).

13. The Agency will need to receive information from the Joint Commission which has a bearing on the Agency's implementation of the verification and monitoring of Iran's nuclear-related commitments as set out in the JCPOA. The Agency may also be requested to participate in other meetings of the Joint Commission as an observer.

<sup>11</sup> "Adoption Day" and "Implementation Day" are defined in the JCPOA, para. 34, (i) and (ii).

## D. Additional Resources Required by the Agency

14. The verification and monitoring activities requested of the Agency as set out above (paras 4, 10 and 11) will incur costs to the Agency beyond those provided for in the Regular Budget,<sup>12</sup> as indicated below. All additional funding requirements until the end of 2016 will be met from extrabudgetary resources.<sup>13</sup>

15. The estimated costs for the period prior to “Implementation Day” are as follows:<sup>14</sup>

- €0.80M per month for the continued cost of activities necessary for the verification and monitoring of Iran’s nuclear-related commitments under the JPA, covering the period between 1 October 2015<sup>15</sup> and “Implementation Day”, to be funded by extrabudgetary resources;
- €0.16M per month for the preparatory activities related to the verification and monitoring of Iran’s nuclear-related commitments, covering the period between “Adoption Day” (18 October 2015 or earlier) and “Implementation Day”, to be funded by extrabudgetary resources.

16. The additional funding necessary for the activities in Iran from “Implementation Day” onwards is estimated to be €9.2M per annum. This estimate comprises €3.0M per annum for the provisional implementation of Iran’s Additional Protocol and €6.2M per annum (of which, €2.2M per annum is for inspector costs) for verification and monitoring of Iran’s nuclear-related commitments as set out in the JCPOA. The activities related to the latter estimate are foreseen as being applicable for fifteen years.

17. The cost of the provisional implementation of Iran’s Additional Protocol (€3.0M per annum) and the inspector costs associated with the verification and monitoring of Iran’s nuclear-related commitments as set out in the JCPOA (€2.2M per annum), totalling €5.2M per annum, will be unfunded in the Regular Budget in 2016 and will, therefore, need to be met from extrabudgetary resources. During preparations for the Agency’s budget update for 2017, the Director General intends to consult Member States on the implications for the Regular Budget for 2017 and beyond.
