Subject to the provisions of the Co-operation Agreement, the Commission shall transfer to the Agency and the Agency shall accept from the Commission, before the end of the calendar year 1966, approximately 370 grams of uranium-235 contained in uranium enriched to approximately 20% by weight in the isotope uranium-235 (hereinafter called the "fuel material"), the precise quantities to be determined pursuant to Section 3, contained in ten fuel elements for the 100-kilowatt FiR-1 Triga Mark II research reactor (hereinafter called the "reactor").

Section 2. The Agency shall transfer to Finland and Finland shall accept from the Agency the fuel material.
