The **Permanent Mission of the Bolivarian Republic of Venezuela** presents its compliments to the International Atomic Energy Agency and takes the opportunity to refer to resolution GOV/2005/64 entitled “Implementation of the NPT Safeguards Agreement in the Islamic Republic of Iran and related Board resolutions”, adopted by the Board of Governors on 11 August of this year.

In this connection, this Permanent Mission, a member of the aforementioned Board, would like to express its disagreement with the procedure by which this resolution was negotiated and approved, as it did not allow for the just participation of all the States present in the discussion and adoption of a document of such importance.

For the reason given above, the Bolivarian Republic of Venezuela hereby expresses its disagreement with resolution GOV/2005/64, which in its opinion runs counter to the development of the Iranian people and of all countries interested in availing themselves of their inalienable right to use nuclear energy for peaceful purposes.

The **Permanent Mission of the Bolivarian Republic of Venezuela** would be obliged if the Agency would give consideration to this communication and circulate it and takes this opportunity of reiterating to the International Atomic Energy Agency the expression of its esteem.
