

## Information Circular

**INFCIRC/709**

Date: 20 July 2007

**General Distribution**

Original: English, Russian

---

Communication received from the Resident Representatives of the Russian Federation and the United States of America to the IAEA enclosing the text of a Declaration on Nuclear Energy and Non-proliferation Joint Actions, and the text of a Joint Statement by the Minister for Foreign Affairs of the Russian Federation, Sergey Lavrov, and U.S. Secretary of State, Condoleezza Rice

1. The Director General has received a communication dated 10 July 2007 from the Resident Representatives of the Russian Federation and the United States of America with the attachments of a Declaration on Nuclear Energy and Nonproliferation Joint Actions published by the Russian Federation and the United States of America on 3 July 2007; and the text of a Joint Statement by the Minister for Foreign Affairs of the Russian Federation Sergey Lavrov and U.S. Secretary of State Condoleezza Rice.
2. As requested in that communication, the letter and its attachments are circulated for the information of Member States.

Permanent Mission  
of the Russian Federation

Permanent Mission  
of the United States of America

Vienna, 10 July 2007

Sir,

We have the honour of enclosing the text of Declaration on Nuclear Energy and Nonproliferation Joint Actions published by the Russian Federation and the United States of America on 3 July of this year concurrently in Moscow and Washington, the day after the meeting of Presidents Vladimir Putin and George Bush in Kennebunkport, Maine. We also have the honour of enclosing the text of a Joint Statement by Minister for Foreign Affairs of the Russian Federation Sergey Lavrov and U.S. Secretary of State Condoleezza Rice. We request that you circulate these documents for information to the Agency Member States.

Accept, Sir, the assurances of our highest consideration.

  
Alexander Zmeyevskiy  
Resident Representative  
of the Russian Federation

  
Gregory Schulte  
Resident Representative  
of the United States of America

Enclosure

Mr. Mohamed ElBaradei  
Director General  
International Atomic Energy Agency  
Vienna

THE WHITE HOUSE  
PRESIDENT  
GEORGE W. BUSH

For Immediate Release  
Office of the Press Secretary  
July 3, 2007

## Text of Declaration on Nuclear Energy and Nonproliferation Joint Actions

We are determined to play an active role in making the advantages of the peaceful use of nuclear energy available to a wide range of interested States, in particular developing countries, provided the common goal of prevention of proliferation of nuclear weapons is achieved. To this end, we intend, together with others, to initiate a new format for enhanced cooperation.  [White House News](#)

Bearing this in mind, we acknowledge with satisfaction the initialing of the bilateral Agreement between the Government of the Russian Federation and the Government of the United States of America for cooperation in the field of peaceful use of nuclear energy. We share the view that this Agreement will provide an essential basis for the expansion of Russian-U.S. cooperation in the field of peaceful use of nuclear energy and expect this document to be signed and brought into force in accordance with existing legal requirements.

We share a common vision of growth in the use of nuclear energy, including in developing countries, to increase the supply of electricity, promote economic growth and development, and reduce reliance on fossil fuels, resulting in decreased pollution and greenhouse gasses.

This expansion of nuclear energy should be conducted in a way that strengthens the nuclear nonproliferation regime. We strongly support the Treaty on the Non-Proliferation of Nuclear Weapons, and are committed to its further strengthening. We support universal adherence to the IAEA Additional Protocol, and call on those who have not yet done so to sign and ratify it. We support the activities of the IAEA with respect to both safeguards and promotion of peaceful nuclear energy, and fully understand the need for growth of its capabilities, including its financial resources, commensurate with the expanded use of nuclear energy worldwide.

We are prepared to support expansion of nuclear energy in the following ways, consistent with national law and international legal frameworks. These efforts build on, reinforce, and complement a range of existing activities, including the work at the IAEA for reliable access to nuclear fuel, the initiative of the Russian Federation on developing Global Nuclear Infrastructure, including the nuclear fuel center in the Russian Federation, the initiative of the United States to establish the Global Nuclear Energy Partnership, the IAEA International Project on Innovative Nuclear Reactors and Fuel Cycles, and the Generation IV International Forum.

- Facilitating the supply of a range of modern, safe, and more proliferation resistant nuclear power reactors and research reactors appropriate to meet the varying energy needs of developing and developed countries.
- Arranging for participation in national and multinational programs to develop requirements for nuclear reactors for participating countries.
- Facilitating and supporting financing to aid construction of nuclear power plants through public and private national and multinational mechanisms, including international financial institutions.

- Providing assistance to states to develop the necessary infrastructure to support nuclear energy, including development of appropriate regulatory frameworks, safety and security programs to assist states in meeting international standards, and training of personnel.
- Developing solutions to deal with the management of spent fuel and radioactive waste, including options for leasing of fuel, storage of spent fuel, and over time development of technology for recycling spent fuel.
- Ensuring that the IAEA has the resources it needs to meet its safeguards responsibilities as nuclear power expands worldwide.
- Supporting expanded IAEA Technical Cooperation to help states build the necessary infrastructure for safe, secure, and reliable operations of nuclear power plants.
- Assisting development and expansion of regional electricity grids, to permit states without nuclear reactors to share in the benefits of nuclear power.
- Providing nuclear fuel services, including taking steps to ensure that the commercial nuclear fuel market remains stable and that states are assured of reliable access to nuclear fuel and fuel services for the lifetime of reactors, including through establishment of international nuclear fuel cycle centers, to provide nuclear fuel cycle services, including uranium enrichment, under IAEA safeguards.
- Supporting negotiation of long-term contracts for power reactors and research reactors, including assured supply of fuel and arrangements for management of spent fuel.

We are prepared to enter into discussions jointly and bilaterally to develop mutually beneficial approaches with states considering nuclear energy or considering expansion of existing nuclear energy programs in conformity with their rights and obligations under the NPT. The development of economical and reliable access to nuclear energy is designed to permit states to gain the benefits of nuclear energy and to create a viable alternative to the acquisition of sensitive fuel cycle technologies.

The energy and nonproliferation challenges we face today are greater than ever before. We are convinced that this approach will permit substantial expansion of nuclear energy and at the same time strengthen nonproliferation. We welcome the cooperation of states that share this common vision and are committed to jointly taking steps to make this vision a reality.

THE PRESIDENT OF THE UNITED  
STATES OF AMERICA:

THE PRESIDENT OF THE RUSSIAN  
FEDERATION:

Washington, Moscow  
July 3, 2007

U.S. DEPARTMENT of STATE

Media Note  
Office of the Spokesman  
Washington, DC  
July 3, 2007

## **Joint Statement by U.S. Secretary of State Condoleezza Rice and Minister for Foreign Affairs of the Russian Federation Sergey Lavrov**

Following is the text of a joint statement by Secretary of State Condoleezza Rice and Russian Foreign Minister Sergey Lavrov:

Begin Text

The United States and Russia reiterate their intention to carry out strategic offensive reductions to the lowest possible level consistent with their national security requirements and alliance commitments.

To this end, Ministers discussed development of a post-START arrangement to provide continuity and predictability regarding strategic offensive forces. Upon instructions of the Presidents, the sides will continue these discussions with a view toward early results.

We are fully committed to the goals of the Treaty on the Non-Proliferation of Nuclear Weapons, and consider the arrangement we are pursuing to be a further step in implementing our commitments under Article VI of the Treaty.
