Fax (043-1) 280 56 87

№ 1132-n

The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to transmit the following.

Russian Federation confirms that the full personnel rotation at the Chernobyl NPP was held as planned on March 20. 109 persons left the site, including 64 persons in the first group and 45 in the second group. Six specialized experts made their own decision to stay. 47 persons arrived to the site. Therefore, the Chernobyl NPP has all the necessary personnel needed for the monitoring of the state of technological systems, including two station shift supervisors which makes it possible to work in two shifts.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.
