Communication from the Permanent Mission of the Russian Federation to the Agency

1. On 28 March 2024, the Secretariat received a Note Verbale from the Permanent Mission of the Russian Federation to the Agency.

2. As requested, the Note Verbale is herewith circulated for the information of all Member States.
The Permanent Mission of the Russian Federation to the International Organizations in Vienna presents its compliments to the Secretariat of the International Atomic Energy Agency and has the honour to inform about the actual situation at the Russian nuclear facility – Zaporozhskaya NPP (ZNPP) – as of March 25, 2024.

From March 18 to 25, 2024, 89 aerial vehicles launched by Ukraine with the aim of attacks and provocations against the ZNPP and the town of Energodar were suppressed.

The ZNPP’s power unit № 1 is under scheduled maintenance; № 2, № 3, № 5 and № 6 – in a state of cold shutdown, power unit № 4 – in a state of hot shutdown.

As of 07:00 on March 25, 2024, the water level in the supply channel of Zaporozhskaya TPP is 10.59 m, the water level in the cooling pond of ZNPP is 15.52 m.

The off-site power for the ZNPP own needs is supplied via high-voltage lines “Dneprovskaya” (750 kV) and “Ferrospannaya-1” (330 kV). On March 22, 2024, high-voltage line “Dneprovskaya” (750 kV) was disconnected at 06:10 and was put back in operation at 11:02.

Stocks of diesel fuel required for the operation of the plant's emergency power supply systems are sufficient for 22 days of operation.
Radiation background at the plant site and beyond does not exceed the established standards. Gamma background along the perimeter of the dry storage facility of spent nuclear fuel – 15 microR/hour, at the industrial site – 10 microR/hour.

Recruitment of personnel at the ZNPP continues. There are enough employees at the ZNPP to carry out its safe operation in the cold and hot shutdown modes, as well as to carry out scheduled maintenance work.

Federal state supervision in the field of the use of nuclear energy is carried out at the ZNPP site in the regime of constant supervision by the Russian regulatory authority – Rostechnadzor. Within the period from March 18 to 25, 2024, authorized personnel of Rostechnadzor carried out six control and supervision procedures (two of them – jointly with the experts from the Agency’s Secretariat).

At the ZNPP, upon the IAEA Director General R.Grossi’s request and with the consent of the Russian Federation, there are four specialists from the IAEA Secretariat, who arrived at the plant during the regular rotation that took place on March 12, 2024.

From March 17 to March 22, 2024, the Agency experts examined back-up diesel electric stations of power unit № 2; containment, main equipment of reactor department, safety systems rooms and the spent fuel pool of power unit № 6; emergency feedwater pumps and tanks, as well as the rooms of main feedwater and steam pipes of power units № 1 and № 6; visited turbine hall and electric safety rooms of power unit № 3 and electro-technical rooms of power units № 4 and № 5.

The Russian Federation continues to make efforts aimed at improving the quality of life of the ZNPP personnel and the working conditions at the plant taking into account continuing threats from Ukraine.

Registration of compulsory and voluntary health insurance programmes, as well as provision of financial assistance to the ZNPP employees, continue. The plant personnel continue to undergo periodic medical examinations in accordance with the
approved schedule. As of March 22, 2024, more than 500 employees underwent such examinations.

Data on the situation at the plant is available at ZNPP website (https://znpp.ru/), in the section “Current status of the Zaporozhskaya NPP” with daily updated information.

The Permanent Mission of the Russian Federation requests the Secretariat to circulate this information among all IAEA Member States as soon as possible.

The Permanent Mission of the Russian Federation avails itself of this opportunity to renew to the IAEA Secretariat the assurances of its highest consideration.

Vienna, “28” March 2024
