Safeguards implementation in 2016

Helping prevent the spread of nuclear weapons

What did we achieve in 2016?

We concluded that for:

- **69 States**
  - all nuclear material remained in peaceful activities.
- **104 States**
  - declared nuclear material remained in peaceful activities.
- **3 States**
  - nuclear material, facilities or other items to which safeguards had been applied remained in peaceful activities.
- **5 States**
  - nuclear material in selected facilities to which safeguards had been applied remained in peaceful activities.

How did we get there?

**Our legal framework**
- **181 states** with safeguards agreements in force
- **129 states** with additional protocols in force

**Our verification process**
- Collected & evaluated **1,037,156** nuclear material reports
- Verified **25,044 seals**
  - installed on nuclear material, facility critical equipment or IAEA's safeguards equipment at nuclear facilities
- Conducted **3,007** in-field verifications
- **13,275** days in the field
- **1,436 cameras** connected to 266 facilities
- Deployed **1,057** non-destructive assay systems
- Collected **474** environmental samples
- **603** nuclear material samples
- Remotely monitored **122** facilities

**Our resources**
- **135 million** +40.5 million extra budgetary
- **932 staff & contractors** from 96 countries
