

## Slavik Tabakov

International Organizations for Medical Physics, York, UK

Professor Slavik Tabakov is President of the International Organization for Medical Physics (IOMP), a professional organization unifying the medical physics societies of 86 countries and with around 25,000 members. He graduated from the Technical University of Sofia. He started his career at the Medical University of Plovdiv and in 1991 he began working at the King's College Hospital in London, UK. His current academic positions include Director of MSc Clinical Sciences (Medical Physics), MSc Clinical Sciences (Clinical Engineering), and MSc Medical

Engineering & Physics. He is also Co-Director of the International College on Medical Physics, ICTP, in Trieste, Italy. Professor Tabakov has led 7 international projects, which developed the first e-learning capabilities in medical physics, the first Medical Physics Dictionary (translated to 29 languages) and the first e-Encyclopaedia of Medical Physics ([www.emitel2.eu](http://www.emitel2.eu)). He is also Founding Co-Editor of the IOMP Journal Medical Physics International. He has chaired the Education and Training Committees of IOMP, IFMBE and IUPESM and has advised in the development of 15 MSc courses. Among his awards are the EU Leonardo Da Vinci Award and the IOMP Harold Johns Medal for Excellence in Teaching and International Education Leadership.
